that the woman in the Ford had been terribly injured, her back being perhaps broken. Dr. Ward got her into a passing car at once and sent her to a hospital in Charlotte. He did not get the names of either party, but did get the car numbers. Then he turned over to Sheriff Fowler, who sent them to the Mecklenburg officials.

It is to be hoped that the Mecklenburg sheriff can catch up with this brute and he can be put to work breaking stones on the road. —Raleigh News and Observer.

**SCIENTISTS DEPEND ON THE AIRMEN FOR PHOTOGRAPHS**

San Diego, Calif., Sept. 11.—Navy aviators under the command of Capt. V. Marshall, are depended upon by scientists to furnish them with photographs showing the corona of the sun. Fifteen airplanes from the battle fleet squadrons took the air more than an hour before the totality period of today's eclipse of the sun and each of them rose to more than 16,000

feet, considerably above the fog and cloud banks that interfered with the view from the ground.

Many photographs of the eclipse were made by the navy photographers.

Lieut. John A. Macready, noted army aviator, and Captain Stevens flew to Ensenada, where they ran into heavy cloud and rain banks that prevented their rising above 16,000 feet. The two returned to San Diego shortly after 3 o'clock and reported that at the time of totality they were in heavy rain.

Scientists at Point Loma stated that because of adverse conditions prevailing the eclipse observations were unsatisfactory.

**Hanging Too Good**

There are some actions not put down in the ancient calendars of crime for which hanging would be too respectable a punishment. Automobillists, loaded with whiskey and pistols, or loaded with brutal indifference to the life and safety of their fellows, or with both, are a menace to the roads. If possible they should be denied the privilege of driving on the good roads North Carolina's reputable people are taxed to construct and maintain. There are too many cases of accidents, but there is excuse for unavoidable accidents, which cannot always be averted, but there should be no toleration for such brutality as is thus told by the Monroe Journal:

While driving from Charlotte Sunday night, Dr. J. A. Ward witnessed a most brutal manifestation of recklessness and cruelty by automobile drivers. Dr. Ward came upon a Ford by the roadside two miles this side of Mathews in which a man and his wife were riding. The car had some slight defect and Dr. Ward helped them get started. Just as they drove off down the road towards Monroe a large car came tearing down the road from towards Charlotte at high speed and taking the road with the utmost recklessness. In a whiff the big car had run into the little Ford and smashed it. The driver paused only long enough to see that serious damage had been done and then drove on without offering assistance or making his identity known. It was found
