"Strong and Well"
"I WISH you could know how much I am improved since taking the Cardui," writes Mrs. Nannie Brown, of Black Rock, Ark. "You wouldn't know me for the same weak invalid I was before I took it. At my . . . I had to keep off my feet or I would fall. I couldn't do my housework, and just got where I'd most as feel to be dead as living. Some one told me my husband of Cardui. He got it for me and I took three bottles before I stopped—then off and on for the last three years just as a tonic. I saw a decided improvement after my first bottle. I used the three, and was able to do my work with ease, and now I can work for my family and for others. I am feeling fine, and strong and well."
 Take Cardui! It may be just the medicine you need.

FARMERS PROSPER AS NEVER BEFORE
 Cooperative Marketing Ushers In New Era of Prosperity Within 2 Years

Raleigh, Nov. 12.—After two years of cooperative marketing of cotton and tobacco, prosperity returns to the Carolinas with a flood tide that breaks all former bounds. With the value of the crops around which 80,000 North Carolina farmers have organized estimated at close to \$250,000,000 by the North Carolina Department of Agriculture, as compared to the value of \$157,239,000 received for cotton and tobacco in 1922, the miracle of orderly marketing becomes apparent.

The farmers who have worked together to bring back prosperity to their states by orderly marketing are not unmindful of the cause for its return. Many thousands have joined the marketing association within the past twelve months. The total signers of the tobacco association contract now running beyond 93,000 according to the latest count.

Rumors that the final payment to tobacco growers of the cooperative association in the Old Belt would bring their total receipts to about twenty dollars a hundred were set at rest this week when it was announced from the association offices in Richmond that the total cash payments will average closer to \$25.00 than \$20 per hundred pounds and that another substantial payment will be made to members both in the Old Belt and in Eastern North Carolina, on the crop of 1922 when the redried tobacco which is now selling well is finally disposed of. These figures can not be taken as final as they are dependent upon the final sales of the association's redried tobacco nor do they apply to every individual member of the association, because of wide variations of the quality of the tobacco delivered.

The average of Edward Mabrey of Fuquay Springs who received over thirty dollars per hundred pounds first cash advance for an entire barn of tobacco, establishes a new high record for the marketing association. Over 750 pounds of Mr. Mabrey's load of \$20 pounds brought an advance of \$32.50 per hundred. George Worthington of Ayden whose load of 610 pounds brought an average of \$24 a hundred. J. C. Eddies of Spring Hope whose load of 692 pounds brought \$143.63 and C. W. Bright of Greenville who received a first cash advance of \$263.91 for 1304 pounds are among the many growers who have lately benefitted from the increased cash advances made by the tobacco association this year.

Deliveries to association houses reached seven million last week. The association will open twenty more warehouses in Virginia Tuesday, Nov. 20, to receive the dark tobacco of its members who last year delivered sixty per cent of Virginia's crop of dark tobacco.
 Continued violation of their contract with the Tobacco Growers Cooperative Association, following an injunction of the court resulted in the sentence of 30 days in jail and a fine of \$250 each for R. O. Stephens and T. F. Morris, of Rockingham county, who were last week adjudged in contempt of court by Superior Court Judge Henry P. Lane at Winston-Salem.

RUM RUNNER SKIPPER AND CREW ARE JAILED

Captain Skelton Thinks It is a Poor Way to Treat Shipwrecked Sailors
 Beaufort, Nov. 11.—"It is a poor way to treat shipwrecked sailors," says Capt. A. C. Skelton of the rum runner Pilot, who with five members of his crew is held in jail here.

After a preliminary hearing afternoon in Morehead City, Captain Skelton was held under a \$500 bond and the men under bond of \$250 each. No arrangements have been made for giving bail and the men expect to be confined for several days at least.

The captain says the owners of the Pilot live in Nassau and he has not heard from them yet. He says he has not violated any state or national law and thinks he is being kept in prison unlawfully. Furthermore, he says that he expects to make claim for the cargo of whiskey which was destroyed by prohibition officers.

Captain Skelton says he left Bimini, Bahama islands bound for St. Pierre, Miquelon, loaded with 30 barrels and 261 cases of 12 bottles each of whiskey. It was of the American variety, bottled in bond. After traveling for four days in the teeth of a northeast gale and having lost his bearings, last Tuesday evening the captain ran his vessel at full speed head on the sandy shore of Dogue banks some 20 miles west of Beaufort.

The shipwrecked sailors swam through the raging surf to the shore where they built a fire and spent the night. The vessel partially broke up during the night and some of the cargo drifted ashore. The spot where the wreck occurred is a lonely one and the men did not know where they were

until the next day when they crossed over to the sound side of the island and saw some fishermen.

Word was sent to the Bogue inlet coast guard station and the coast guard men soon went to the scene of the wreck and took charge. Later prohibition officers arrived and Wednesday afternoon Sheriff Wade and Mayor Thomas of Beaufort came.

The cargo of whiskey was destroyed by the direction of the prohibition officers except a few cases which were stolen before their arrival. Some property was salvaged from the vessel and wreck itself was burned.

George Piner, a member of the crew in a Morehead City youth and shipped aboard the Pilot at Miami.

Congratulations

"Do I understand," said the young man, firmly, "that you absolutely decline to let me marry your daughter?"

"I do!" replied her father, firmly.

"Sir," said the young man, reaching for his hat, "will you shake hands on parting?"

"Of course," said the father, surprised. "And I am glad to see that you take the disappointment so well."

"Yes," said the young man, "and if you'll allow me, I am going to send you a box of cigars, too. You don't know how near that daughter of yours came to having me hooked."

Eight "Carriers" Revealed in War on Diphtheria

Greensboro, Nov. 10.—Eight known "carriers" of diphtheria were discovered last month through examinations conducted by the city health department. It is shown in the report of the department for the month of October issued yesterday.

"Diphtheria, with 25 cases and eight known "carriers", leads the list of infectious diseases," the report says. "However, early diagnosis by the practicing physician, assisted by the department's laboratory, resulted in the prompt use of antitoxin and there were no deaths from this deadly disease."

"Carriers" are described by physicians as being persons who carry and spread communicable disease germs but are themselves immune from contagion. The "carriers" discovered by health authorities here were segregated.
