Number of shares in force at the close of year, 1,122.

We feel that the above statement is very creditable. As you see this report at the close of business on December 31, 1933 covers a period of operation of less than two years. It has been the means of helping a goodly number of Mount Airy people to own their homes and has created in a great many more the idea of a method of systematic saving. From a standpoint of investment we find that the earnings have been more than 5 per cent, and when we take into consideration the fact that neither the State or Federal Government charge tax on it, it makes it very attractive.

The books for our seventh series will be open on the first day of March. We will offer for sale shares in the series through both March and April. We are desirous of selling at the least as many shares as we now have in force. If you are a Shareholder make your arrangements to buy additional shares and if you are not a Shareholder we are anxious to have you become one. Every dollar of the money that is paid in is loaned out to the members for either building, remodeling or lifting a mortgage on his or her home.

Kiwani's Quartette Sings for Greensboro Brethren

Last Thursday night the Kiwanis quartette, composed of Eugene Olive, W. E. Lindsay, E. C. Bivens and G. C. Lovill, sang for the Kiwanis club in Greensboro. It is understood on good authority that one of the local churches sent A. G. Webb along with the quartette as a chaperone.

From Greensboro Mr. Webb and Mr. Olive visited Chapel Hill, future scene of Mr. Olive's ministry, and from there they took in the students' conference in Raleigh, and attended some of the Ham-Ramsey meetings. While in Raleigh Mr. Webb visited his daughter, Miss Alma, who is a student in Meredith college.

DRY LIME SULFUR
(The Original)
Kill the Scale Before it Kills Your Tree

Guaranteed to have all the good qualities of liquid Lime-Sulfur. It is the latest and most valuable spraying product that has been developed. It dissolves readily in water and will control insects and diseases just as effectively as lime-sulfur solution. Why incur the losses and disadvantages of measuring out a liquid, handling heavy barrels, waste by leakage, paying freight on water, when all this can be eliminated by mixing your own on the spot at home. Dry Lime-Sulfur is an effective remedy for San Jose, Oyster-Shell Scale, Peach leaf curl and Blight, Peach twig Borer, Apple and Pear Scab etc.

SHERWIN-WILLIAMS PRODUCTS
LARGEST MAKERS INSECTICIDES IN THE WORLD

The correct mixture for spray solution is 12 to 15 pounds DRY LIME-SULFUR to fifty gallons water. This makes your solution cost you approximately 4 cents per gallon which is less than one-tenth the cost of Lime-Sulfur solution on today's market.
