"Standard" is the dealer's choice

"Standard" Gasoline is as popular with the dealer as it is with the motorist. The men who choose this brand to sell are hard headed business men. They know that the public demands quality and that they can get their share of the business only by carrying what the public wants. Judging by the number of "Standard" pumps you see it's "Standard" Gasoline that the public wants.

There is a sound, substantial reason behind this popularity. "Standard" Gasoline has built up and maintained a reputation for quality since motors first replaced the horse. Quality does not show on the surface. Most gasolines look alike. Your best guarantee of quality is this popularity, for it is based on past performance and the personal experiences of millions of motorists.

STANDARD OIL COMPANY [New Jersey]

Å.

The wonderful new fuel-"Standard" Ethyl Gasoline-now avail able at many "Standard" pumps, completely eliminates "gas knock". More power on the hills! Less gear shifting! Less vibration! Ask the man at the pump about it.

(0)

"Standard" is the trade mark of the Standard Oil Co. (N.J.), registered in the United States and many foreign counts
