**CHIMPANZEE CARGO REACHES FRANCE**

**Nearly All Are Going to Laboratories for Experiments by Trained Scientists.**

Paris, Aug. 2.—A dozen chimpanzees and two baboons have just arrived in Bordeaux from French West Africa, captured in French Guinea. Four male chimpanzees, which are five feet tall, are destined for grafting laboratories while the others are doomed for experiments at the Pasteur Institute. Only one of the consignment, a female long-tailed ape with her infant, has the good fortune to be on her way to the zoological garden at Paris. Three chimpanzees died on the voyage.  
 The capture of chimpanzees and the commerce in them is now strictly regulated in this French colony, as there was danger of making them extinct when bands of hunters came and killed about 100 yearly. They used to surround the animals in the brush, beat them with clubs and fire shots at them with the result that the captured animals invariably succumbed to wounds. This hunting was by no means free from danger to the hunters. In fact, monkey hunters in Guinea can be recognized by the fact that they seldom have all their fingers.  
 Chimpanzees can be hunted now only for scientific purposes under official permits and by means of nets similar to those used by fishermen but of stouter cord and with heavier weights.

**State Board of Elections Award Certificates of Nomination to Candidates.**

Raleigh, Aug. 8.—The state board of elections today awarded Frank Grist his certificate of nomination for commissioner of labor and printing, certified to the nomination of Chief Justice W. A. Hoke and Associate Justice George W. Conner, and ordered their names placed on the ticket. They notified the Republicans of this action so that their nominees might be supplied. There is an understanding here that the Republicans will pay their perfect tribute to the beloved Hoke and to the son of Judge Henry G. Conner, who once was nominated by the Republicans on their non-partisan ticket. In his own name Judge Conner is tip-top with the Republicans. Other successful solicitors and senators were given their certificates.  
 Sundry sheriffs of North Carolina were here today organizing into a sheriff's association to extend the term from two to four years.  
 Sheriff E. D. Hunt, of Granville, was elected president, B. Scull, of Hertford, vice-president, D. B. Harrison, of Wake, secretary, and O. H. Glover, of Wilson, treasurer. D. B. Stafford, of Guilford, A. W. Taylor, of Lenoir and D. B. Harrison of Wake are the legislative committee. Other county officers will be included in the extended term. About 25 sheriffs were here.

**Flyer Died As He Honored 'Buddy'**

Reno, Nev., Aug. 2.—A coroner's jury will determine how William F. Blanchfield, air mail pilot, met his death yesterday afternoon. But the men of the service know that "Big Bill" lost his life paying his last respects to a "buddy," Samuel Gerrans, one of the men who work on the ground but are entrusted with keeping the planes in perfect order.  
 They know, too, that when Blanchfield was flying over a Reno cemetery to drop a wreath on the open grave, a trick of the wind caught the craft as the pilot turned for the closing act in the funeral services and tipped it. The plane went into a nose dive and burst into flames when it hit some telephone wires. A house near where it fell also was destroyed by the fire.  
 And so Blanchfield, veteran of the World War and many battles with blizzards while carrying the mail over the Nevada deserts, died.  
 When services at Gerrans' grave were briefly ended with the firing of three volleys by uniformed veterans, the mourners went to the pyre of the pilot, a few yards down the hillside.

**Bill is Before Senate To Make It Continuous From Wilmington to Mount Airy.**

Raleigh, Aug. 9.—With the introduction in the senate of the state port commission bill and a resolution looking to restoration of the old Cape Fear and Yadkin Valley railroad as a continuous east and west railroad from tidewater at Wilmington to Mount Airy, the North Carolina general assembly today got down to the real business of its extra session.  
 Both branches of the legislature adjourned after brief sessions today, until Monday.  
 The port commission bill today brought promise of a fight in the committee and possibly on the floor of the senate to eliminate the section providing for a referendum to the people. In introducing the bill today Senator Harris, of Wake county, served written notice on Lieutenant Governor Cooper that he and Senators Brown and Bellamy, who will have joint charge of the measure, would endeavor to have the referendum clause stricken out of the measure in committee.  
 Should they succeed in having the referendum section eliminated and the bill passed without that section, it would empower the state treasurer to issue \$8,500,000 worth of bonds as needed for building port facilities and acquiring ships for operation in the coastal trade, and the commission would be authorized to begin immediate work of developing the water transportation possibilities of the North Carolina coast.  
 The companion resolution relating to the Cape Fear and Yadkin Valley railroad provides for a commission of five to ascertain what action can be taken to restore this line to continuous operation from Wilmington to Mount Airy instead of being divided as at present.

**Baby Carried Off By Bear And Left in Ditch**

Whiteville, N. C., Aug. 6.—Reports from Clarendon, 12 miles southeast of here tell the following story: Mrs. Shepherd Strickland was greatly disturbed and shocked yesterday morning when she returned from a short visit to a neighbor's house to find that her little one-year old daughter was missing. She had left her only for a short time before with her four-year-old brother on her porch, and when she returned the little boy aroused from a nap told his mother that a bear had come since she left and came pretty near catching him. When asked about the whereabouts of his little sister, he could give no information.  
 The Stricklands live about a mile from Clarendon, and soon the news of the missing child was circulated and in a very short time the whole community joined in the search for the missing baby, which presumably had been carried off by a bear. Tracks of some animal and said by members of the searching party to be made by a bear, and with this evidence it was the opinion of all that the child was destroyed. The whole community was diligently searched for the baby in a hunt that lasted four hours, when members of the party found the baby some three-quarters of a mile from its home in a ditch unharmed.  
 It would have been physically impossible for the baby to have made the trip unaided as she is just learning to walk, and is rather frail. Besides, there was a canal and several ditches between the house and the place where she was found.

**Fails to Find \$5 Put in Church Collection by Error**

Danville, Aug. 8.—How close is the resemblance between a 25-cent piece and a \$5 bill?  
 The treasurer of a Danville church had never thought—nor does he now think—that the likeness between the two is striking but he is perfectly willing to investigate a contrary opinion.  
 He proved that last week when the claim was made by a man who is identified only to the extent of his self-proclaimed name of "Mr. Jones" that he had dropped a \$5 bill in the collection plate through error, thinking that he was contributing twenty-five cents. "Mr. Jones" desired to get the appropriate amount of change, he informed the pastor of the church when first reporting the amazing lapse.  
 The pastor, desiring to ascertain the facts in the remarkable case, sought the aid of the church treasurer. The latter reported on survey that neither "Mr. Jones" nor any other member of the Sunday congregation had been so generous or forgetful as to deposit an amount represented by the alleged \$5 bill.  
 "Mr. Jones" had requested that his change be left for him at a designated place. Presumably, he is still waiting there to collect it, since neither the pastor nor treasurer of the church has been able to find "back or hide" of the crinkly donation.

**SOVIET HORRORS ARE RELATED IN ESSAYS**

**School Boy Emigrants Write About Their Experiences in a Touching Manner**

Prague, July 20.—A touching collection of human interest material has just emerged from a school in which 500 children of Russian emigrants receive their daily instruction. All of them were asked to write down their experiences from 1917 to the time of their entering the school, and were given two hours to complete the task.  
 Here is one of the productions: "From Persia we went to Archangel, from there to Norway and London. After Egypt I lived in Paris, Stockholm and Warsaw. I tried to get to Brazil. With papa we went to Java. We kept changing places for six years."  
 The following sounds like a novel: "We traveled about for a long time and lived poorly. In one city our little dog licked the boots of a beggar. We walked home and the beggar followed us. Suddenly mother fainted. The beggar took off his beard—it was our long-lost papa."  
 What happened to one boy during the revolution is described as follows: "Both my brothers were killed. My father, likewise, was killed and my mother was allowed to starve. Mother returned from the hospital and said, 'You are orphans now, your father died.' Out on the street I saw a list of those shot; papa was among them. Our uncle was summoned and later we found him in a big ditch where there were others also. When father was shot I understood what a revolution is. There were seven of us, and I alone have survived. For half a year I lived on roots and nettles. At the age of 11 I saw how people were shot, hanged, drowned and even broken on the wheel."  
 The shortest description was furnished by a 12-year-old girl: "I saw war, pestilence, and hunger."  
 The collection of essays is to be brought out in book form.

**Big Star 5,000 Times Brighter Than Sun**

(Current History Magazine)  
 Astronomers continue to be interested in Betelegeuse, the erratic giant of the heavens, which achieved popular and scientific fame in 1920, when it was chosen as the first object to be measured by Prof. A. A. Michelson's interferometer, attached to the largest telescope in the world, the 100-inch reflector of Mount Wilson Observatory.  
 This ruddy star, which has been visible in the heavens this spring, may prove to be even larger and more distant than earlier estimates have indicated. It will be remembered that the whole solar system might be immersed in this star without any portion of it projecting beyond its volume.  
 Due to the uncertainty of its distance from the earth, estimates of the diameter of the star vary from 240,000,000 to 400,000,000 miles. It is even possible that Betelegeuse may closely rival, if not surpass, Antares, which has an estimated diameter of about 400,000,000 miles.  
 Incidentally, the actual brightness of Betelegeuse is estimated to be about 5,000 times that of the sun.

**Whose Judgment May Be Trusted to Manage Your Property?**  
 Before you make this important choice you owe it to yourself, and to those whom you wish to benefit, to compare the admittedly superior advantages offered by a good bank possessing the qualifications of any individual you might select to act as your executor and trustee. Many people have an impression that the expert administration of an estate by a big organization like the Bank of Mount Airy costs more than the services of an individual trustee. Let us begin, therefore with the fact that these fees are established by law; that they are the same whether an institution of trust acts as your executor or an individual, and that they are exceedingly moderate in North Carolina, being based on the amount of principal and income received and paid out. Moreover the total final charges against an estate are usually less when a bank serves as executor and trustee.

**Pain In Back & Sides**  
**"FOR A LONG TIME,"** says Mrs. Dora Payne, of Huntington, Tenn., "I felt stiff, tired and worn-out. I did not feel like doing my work, visiting or anything.  
 "I suffered much pain in my back and sides. My limbs hurt, my knees would tremble without apparent cause and I would have to sit down.  
 "I was very nervous. . . I would have a tired, dull headache.  
 "I had read so much about Cardui I asked my husband to get it for me. The very first bottle seemed to help me. After the second . . . I was better than I had been in months. I certainly can praise Cardui.  
 "I have taken three bottles. Now I hardly wait when the sun shines, to garden. I am feeling fine."  
 Similar results to those described above have been reported by thousands of other women. Cardui's 40 years of success should encourage you to give it a thorough trial for the relief of any common female ailment. For sale everywhere.
