According to this classification, tomatoes, grapes, currants and bunnas are all berries. All berries are fruits; that is, the berry is only a species of the larger division of plants called fruits. But popularly there is much confusion as to whether tomatoes should be called vegetables or fruits. The fact is there is no well-drawn distinction between fruits and vegetables in the popular sense of the terms. However, courts in this country have held that all those plants. drawn distinction between fruits and vegetables in the popular sense of the terms. However, courts in this coun-try have held that all those plants, like potatoes, cabbage, carrots, peas, celery, lettuce and tomatoes, which are enten, whether cooked or ray during the principal part of a meal are to be regarded as vegetables, while those used only for dessert are fruits. But this comes a long way from the difficulty.

St. Peter's Chair

Since the Righth century, the fee-tival of St. Peter's chair has been celebrated annually at St. Peter's at Rome, with great pomp solemnity. The chair, old, ugly and wern, on which St. Peter is said to have been pontificated, is contrined by a magnificent throne, supported by four gig figures, and meunted upon a tri decorated by Michelangelo. Venetians once claimed to poss Chair of St. Peter, but it was discovered about a century age that this sup-posedly sacred article bore the inacrip-tion: "There is but one God and Mahomet is His Prophet." It is sup-posed that this chair was brought from the East by the Crusaders.

Life in Everglades

The Indian name of Evergindes in Florida means "Grassy Water." There are miles upon miles of fint, grassy land covered with water, usually very shallow and filled with grasses. Now and then there is a "gut" or "slough" (a creek). Now and then also there is a big swamp filled with trees.

Sometimes one will find a lake all edged with sawgrass. There are little dry spots called "Islands" or "hum-mocks." with trees on them. The water is usually clear, but for the most part has a limey, slippery taste.

There isn't much game in the giades proper, but on the higher land in the vicinity of the glades there are deer. turkey, panther, tittle black bear, rac coon, fox, squirrel, etc., especially in those places that are farthest from civilization, says Hapsburg Liebe in Adventure Magazine.

Famous Patrons of Art

The Medici was a distinguished Florentine family, which rose to su-preme power in the Fifteenth century, and became famous as the restorers of literature and the fine arts throughout Italy. Its most illustrious members were Cosimo de Medici, surnamed B were Cosimo 6t Medici, surnamed it Feechio (The Ancient) and Pater Patriae, and Lorenso, his grandson, surnamed The Magnificent, and The Father of Letters. farm. The Vegetable Compound has given me back my health and I can not praise it enough. I am perfectly willing that you should use these facts if my letter will help other women who still suffer."—Mrs. Dellar BERT Buss. R. F. D. I, Massena, N. Y.

The spirit of helpfulness shown in the letters we are constantly publishing is worthy of notice.

These women know by experience what Lydia E. Pinkham's Vegetable Compound will do. Your troubles are the same as theirs. I san't treasonable to expect the same results?

If you have pains and a dragging-down feeling and are nervous and tritable, profit by Mrs. Bush's experience the compound a trial.

If you are planning to buy a lighting plant—

E SURE you investigate the J.B. Colt system of Carbidegas lighting, cooking and ironing before you decide. Lower in original cost than other plants of equal value, 55% cheaper to operate than an electric-light plant (according to published statements of the Wisconsin Agricultural College), and furnishes the light that science says is nearer to sunlight than any other artificial illuminant. The highest insurance authorities agree that Carbide-e is safer than the illuminant it replaces.

No complicated mechanism to get out of order-no parts to replace-no fuel or lubrication. The J. B. Colt system requires only recharging (average two or three times a year) with Union Carbide, and removal of residue which then gives service as whitewash, soil corrective or germicide.

And remember-besides lighting, this system furnishes gas for cooking, ironing and water-heating.

The J. B. Colt "pit-type" plant is installed in a convenient place in the yard, out of the way and away from the buildings.

Very liberal terms of payment allowed. Have a Colt man tell you the whole story.
