AFTER BABY WAS BORN

Back Weak and Painful. Mrs. Miller Benefited by Taking Lydia E. Pinkham's Vegetable Compound

Rotan, Texas.—"I am writing to let you know how I have been benefited by taking your medicine. After my second baby was born my back was weak and hurt me continually, so I thought I'd try Lydia E. Pinkham's Vegetable Compound as I had read so much about where it had helped so many women. I had been bothered with my back for over a year, and it would hurt me until I could not do my work, which is keeping house for three and cooking and washing dishes. I tell all my friends if they have any kind of female troubles to give Lydia E. Pinkham's Vegetable Compound a trial. You may use this testimonial if it will help any one."—Mrs. C. R. MILLER, R. F. D. No. 1, Box 76, Rotan, Texas.

In a recent county-wide canvass of purchasers of Lydia E. Pinkham's Vegetable Compound over 125,000 replies were received, and 98 out of every 100 reported they were benefited by its use. For sale by druggists everywhere.

Stop That Ache

Don't worry and complain about a bad back. Get rid of that pain and lameness! Use Doan's Kidney Pills. Many Mount Airy people have used them and know how effective they are. Ask your neighbor! Here's a Mount Airy case.

Mrs. P. C. Brannock, 171 Orchard St., says: "I was down with my back and had a catch in the small of it all the time. My kidneys acted too freely and my head had a constant ache. I was terribly nervous at times and would be so dizzy that specks would dance before me. I heard a lot about Doan's Kidney Pills, and got a box. One box of Doan's cured me." (Statement given July 13, 1918.)

On April 23, 1923, Mrs. Brannock added: "I haven't had any serious trouble since Doan's cured me, but I use them occasionally just to keep my kidneys in good order. I am glad to confirm my former statement." 60c. at all dealers. Foster-Milburn Co., Mfrs. Buffalo, N. Y.

A CHILD IS NOT A BASE BALL

Three-Year-Old Son of Next Governor of North Carolina Injured in a Fall

Lumberton, Sept. 14.—After several days observation physicians who were called into attendance upon Master Hector McLean, three-year-old son of Mr. and Mrs. A. W. McLean, believe that no permanent injury was inflicted when the child was allowed to fall heavily to the floor in the McLean residence by a visitor several days ago.

Young Hector was being tossed up, apparently in play, by Major William Harris, an employee of the state geological survey, who was calling at the McLean home. Inexplicably Harris allowed the child to fall heavily to the floor, striking his forehead. He was unconscious for several hours and in a some what dazed condition for a longer period.

NOTICE

I have a small farm I will sell at a bargain to the right party, located on the main road a short distance from The Hollow, Va. postoffice, and 8 miles from Mount Airy, N. C. About 20 acres, half cleared balance in woods. The soil is very productive. One seven room dwelling, painted and in a No. 1 condition. Feed barn, spring house, poultry house wired in, and plenty of fruit of several kinds. This is a very desirable place for one wishing to farm in a small way, it is near the Blue Ridge Academy and near a Methodist church.

I have one good work mare which is also a good saddle horse. My reason for selling is that I am quitting the farm. For full particulars apply to Ernest Culler, The Hollow, Va., R. 2 box 1. 1tp

If you are planning to buy a lighting plant—

BE SURE you investigate the J. B. Colt system of Carbide-gas lighting, cooking and ironing before you decide.

Lower in original cost than other plants of equal value, 55% cheaper to operate than an electric-light plant (according to published statements of the Wisconsin Agricultural College), and furnishes the light that science says is nearer to sunlight than any other artificial illuminant. The highest insurance authorities agree that Carbide-gas is safer than the illuminant it replaces.

No complicated mechanism to get out of order—no parts to replace—no fuel or lubrication. The J. B. Colt system requires only recharging (average two or three times a year) with Union Carbide, and removal of residue which then gives service as whitewash, soil corrective or germicide.

And remember—besides lighting, this system furnishes gas for cooking, ironing and water-heating.

The J. B. Colt "pit-type" plant is installed in a convenient place in the yard, out of the way and away from the buildings.

Very liberal terms of payment allowed. Have a Colt man tell you the whole story.
