ITALIAN VOTERS PUT IN THREE CLASSES

Those Paying As Much As \$20 Tax Get Two Votes—Others Get Three. Rome, Jan. 9.—Premier Mussolini's new Electoral Bill, which is the only topic of discussion here, will employ the plural vote system. This will give the conservative element a great advantage over the proletariat. According to the official text, just issued, the voters are divided into three classes. Adult males unable to read and write, or paying less than \$20 in direct taxes to the state, get one vote.

Two votes are given to a large section of the rest of the community, including all those who pay \$20 or more direct yearly tax, all members of academies of art and letters and science, teachers in schools recognized by the Ministry of Education, holders of certificates from middle and upper schools, members of Italian orders, officers and non-commissioned officers, army, navy, air force and Fascist militia; holders of civil and military decorations, municipal and provincial councilors, members of provincial and administrative committees, proprietors, editors and managers of daily and weekly papers which have been published within a year of the elections, and journalists enrolled in one of the legally recognized press associations.

Others with two votes are those managing industrial, commercial and agricultural enterprises and businesses paying a minimum tax of \$20 yearly for at least two years before the elections, and the fathers of at least five sons who are living or were killed in the war.

Three votes are given members of the royal family, Cardinals, holders of military gold medals, members of the four chief military and civil orders and state officials. In these categories are Deputies, ex-Deputies, Senators and professors of the Royal Universities.

Commenting on the bill, the liberal Corriere Della Sera objects that it will change the whole basis of suffrage in the country, destroying universal suffrage, giving several millions only one vote while a few have two or three. The country's electoral list must be entirely revised. The task will take at least five months. It is doubtful that elections can be held before July.

POLICEMAN GETS YEAR ROAD SENTENCE

Charlotte Officer Submits and Begs Mercy in Liquor Case. Charlotte, Jan. 10.—Floyd A. Dewese, a Charlotte policeman until his arrest last week in possession of 50 gallons of whiskey, was sentenced to serve 12 months on the county roads and fined \$500 when the case was heard before Judge A. M. Stack in superior court Friday afternoon. A provision was made that the county commissioners might hire the prisoner the latter six months of the term in order for him to raise the money for the fine.

"This is a human tragedy," Judge Stack said in sentencing Dewese. "It is a tragedy for the man, a tragedy for his wife and baby and it is a tragedy that an officer of the law should disregard his duty violate his oath and turn to breaking the law he has sworn to uphold.

"In the 50 gallons of liquor he possessed there were at least 500 other crimes. He comes into court and pleads guilty and asks for mercy, saying that he is repentant, but I can't think that he is thoroughly frank with the court, for he has failed to tell me where he got the liquor and to whom he was to deliver it. So long as he seeks to shield others, the court will have to assume that he, himself made the liquor. Dewese was not the only one connected with that liquor. There were others fully as much concerned as he was. Why he should shield them, with a prison sentence facing him, taking him away from his wife and baby, is a mystery to me."

County Agent is Retained in Ashe

Jefferson, Jan. 8.—The Board of Commissioners of Ashe County, T. K. Miller, Chairman, and H. G. Robinson, and Oliver Ham, voted to retain the county agent for a period of two years. The state made the county a very liberal proposition on a two years' basis at \$1800.00 per year, and the commissioners accepted it. There seemed to be considerable sentiment for the discontinuance of the demonstration work in the county among those not familiar with the work; but a good number of leading citizens appeared before the board and asked that the work be continued. Their case was presented by County Agent John B. Steele of Watauga.

SLAYERS FORM BULK PRISONERS

Taking Human Life Leads Other Crimes As Cause of Imprisonment in This State. News and Observer.

Two hundred and fifty-three persons were sentenced to the State Prison during the two years ending June 30, 1924, for taking human lives, according to statistics contained in the report of Hugh A. Love, chief clerk at the prison. Mr. Love's report was included in the general report of the State Prison, recently submitted.

These crimes are classified as follows: second degree murder, 158; manslaughter, 89; first degree murder, 5; infanticide, 1.

Next to manslaughter more persons were sentenced for larceny than for any other crime, 81 such persons being received at the State Prison. Figures compiled by Mr. Love show that on June 30 there were 12 prisoners in the prison serving their fifth terms; 13 serving their fourth terms; 47 serving their third terms; 217 serving their second terms; and 853 serving their first term.

Many other interesting facts are contained in the report of the chief clerk. Figures show a daily average of 1,265 prisoners for the two-year period. One hundred and twenty-nine escapes are recorded and 88 recaptures.

Only one Jewish prisoner was received at the State's Prison during the two year period. The prisoners received during the two-year period included 373 married persons, 309 single persons, 14 widows, and 21 widowers.

Laborers led in getting in jail during the two-year period with 599. Farmers were not even a class second with 64. Mechanics were a far third with 18. Painters were fourth with 16 and cooks were fifth with 15.

Five bankers were imprisoned, one musician, one minister, one insurance man, two accountants, one attorney, one printer, one medical doctor, one school teacher one telephone operator and one stock broker. Real estate dealers and newspaper men seemed successful in keeping out.

The majority of the prisoners admitted during the two-year period were between 20 and 30 years of age with 364. One hundred and seventy-eight were between the ages of 14 and 20. Only 51 were over 50.

More prisoners were admitted from Wake county than from any other county during the two-year period, Wake contributing 72 prisoners, Guilford contributed 58 and Forsyth 33.

Only eight college graduates are confined in the State's Prison but there are 85 prisoners who have had some college education. Two hundred and seventy-three of the 1,265 prisoners can neither read nor write.

New High School Building at North Wilkesboro

North Wilkesboro, Jan. 6.—Classes met Monday for the first time in the handsome new junior-senior high school building here. The construction of the building was started early in June and it was erected at an expenditure of over \$46,000. It is two stories high. All the departments of the high school, including all the grades from sixth through the eleventh, will be housed in the new building, while the kindergarten and grammar grades will remain in the older structure.

STOP!

GO!

It is dangerous to Go, when the signal says Stop! To heed warnings is to save life. The Stop! signals for health are such warnings as backache, shooting pains, recurring headaches, chilliness, dizziness, drowsiness, irritability, moroseness, rheumatic twinges, swollen joints, gout. These signals warn you that there is a "traffic jam" in the kidneys, and the "Go" signal can't be utilized until the clogging poisons (uric acid, mostly) are flushed out. Drinking a glass of hot water each morning is effective and before each meal take an An-uric tablet (anti-uric acid). Stop into any drug store and obtain An-uric tablets, discovered by Dr. Finsen. Free and made at the famous Insulin Hotel, Buffalo, N. Y. Or, send Dr. Finsen 10c for a trial package.

John Wilkes Booth and Oil. Interesting Sketches in Oil No. 15.

IN the spring of 1864 a strikingly handsome, well dressed young man came to Franklin, in the Pennsylvania Oil region. He invested in sixty acres of Oil land, three wells were drilled on the property, each a moderate success. He moved in the best society circles of the district, was well liked by both men and women, and while temperamental was often the "life of the party." One morning in April, 1865, he left Franklin, saying he would return in a few days. He took only a satchel with him; practically all of his clothing and personal effects he left in his room. The next that was heard of John Wilkes Booth was that he had assassinated President Lincoln! The belief that Booth had not previously planned the dreadful act is supported by the fact that every indication showed that he intended returning to Franklin, resuming his Oil activities, and leading the typical Oil field life. But he never returned. Pursued into Virginia, he was shot by Sergeant Corbett and paid for his deed with his life.

Pain In Back & Sides. "FOR A LONG TIME," says Mrs. Dora Payne, of Huntington, Tenn., "I felt listless, tired and worn-out. I did not feel like doing my work, visiting or anything. I suffered much pain in my back and sides. My limbs hurt, my knees would tremble without apparent cause and I would have to sit down. I was very nervous. I would have a tired, dull headache. I had read so much about Cardui I asked my husband to get it for me. The very first bottle seemed to help me. After the second... I was better than I had been in months. I certainly can praise Cardui. I have taken three bottles. Now I hardly walk when the sun shines, to garden. I am feeling fine." Similar results to those described above have been reported by thousands of other women. Cardui's 40 years of success should encourage you to give it a thorough trial for the relief of any common female ailments. For sale everywhere. CARDUI The Woman's Tonic
