

Why Burden Your Wife?

Perhaps your wife has shared many of your business decisions, as many wives do, and because she is your chief beneficiary, you are thinking of making her your executor and trustee. Unless she is a woman of exceptional business training, accustomed to making safe investments, she will find this a perilous task. Moreover, a mere outline of the consecutive steps that must be taken in settling an estate, after the legal authority to act has been granted, would show that as your executor she must attend promptly to many details of management at a time when it may be difficult for her to think of business matters. Why burden your wife with these details, even if, in your opinion, she is competent to attend to them?

EVOLUTION TO BE FOUGHT BY KU KLUX KLAN

Will Take Up Battle Where William Jennings Bryan Left Off

Washington, Aug. 22.—The Ku Klux Klan will take up the battle against evolution where William Jennings Bryan left off, it was learned today.

Klan leaders will meet at Buckeye Lake, Ohio, on Monday to plan an intensive national campaign against teaching evolution in public schools it is understood here. The order will also intensify its anti-immigration activities.

Legislation, both national and state, will be sought by the Klan to prevent public schools from including evolution in the text books, according to a recognized spokesman for the order.

The Klan, however, according to letters does not intend to carry its campaign to an extreme and no attempt will be made to prevent teaching evolution in institutions of higher learning. The purpose of the campaign is to keep the teaching of evolution from the youthful mind.

There have been indications for some weeks that the Klan intended to enter the anti-evolution fight.

"Monkey evolutionists" were bitterly denounced by a speaker at the big Klan demonstration here. Recently klansmen sought to have the teaching of evolution barred in Virginia schools.

While the Klan takes considerable credit for the present restrictive immigration law, it is not satisfied with it and hopes to have the bars put up against any immigrants in the future.

It is understood that the question of erecting an imperial Klan palace here also will be considered at the buckeye meeting.

Whales Don't Spout Water From Lungs

In telling over the story heard down in Buenos Aires from a man who is trying to sail around the world in a 30-foot boat, Captain Penric of the S. S. Voltare quotes the lonely voyager as saying that when whales came close to him, as they did off the Cape of Good Hope, their spoutings fell over him "like a shower bath."

There appears again the ancient and apparently deathless myth that the spouting of whales is a spouting of water. We all have seen numerous pictures of whales sending streams of water high in air, to fall over in a graceful curve. Yet nothing of the sort ever happened. What whales spout is the air from their lungs, preparatory to taking in a new supply. No more than any other mammal does the whale take water into the lungs or pump it out therefrom. The breath mist does rise, but it does not fall, and therefore all the pictures are wrong and the imitation of a fountain is not nearly so close as most of the people who have seen it insist on believing.

Know Wreck Was Certain and Had Ambulance On Scene Early

Salida, Colo., Two trainmen are dead, 15 passengers are seriously injured and 75 others are nursing minor injuries as a result of a head-on collision between two tourist-laden Denver and Rio Grande Western railroad trains near the little mountain station of Granite, Colorado, 40 miles from Salida, late yesterday.

Failure of the east bound train to receive an order to stop at Granite, caused the wreck, railroad officials said. The trains, "Panoramic specials" numbers 7 and 8, which run on a daylight schedule between Denver and Salt Lake City for the benefit of tourists, met on a "reverse curve" after No. 8, eastbound, had failed to receive the stop order, officials said. Steel coaches prevented wholesale loss of life.

By a queer twist of events preceding the crash Samuel Smith, Salida dispatcher, received a report that No. 8 had passed Granite without receiving the stop order and realizing that nothing could prevent a wreck, he notified Red Cross hospital here and was ordering relief trains at Leadville, Buena Vista and Salida to the scene 15 minutes before the crash occurred.

The engine of the east bound train climbed atop the other locomotive as they met, and four coaches of the eastbound carrier left the track.

Belgium Gets Easy Debt Terms

Washington, Aug. 21.—President Coolidge has tacitly assumed responsibility for an agreement under which it is hoped Belgium will pay her \$480,000,000 war debt to the United States—on easy terms.

Belgium will be given a low interest rate, an instalment plan of repaying the principle of the debt, and possibly a moratorium of several years, during which nothing need be paid on either principal or interest.

This represents the rock bottom of American indulgence, it was believed here. The terms were made as low as possible, and probably will serve as a basis for the funding next month of the much larger debts of France and Italy.

Neither France nor Italy will be able to get lower terms, but they probably will get similar concessions. It was for this reason that the administration so placed much importance upon this settlement.

"Fix this for keeps"

"That's no way to do things! You can keep putting in new bushings till Doomsday and they'll always burn out. Remember this: where there's an effect there's a cause. Bearings don't just burn out unless there's a reason for it and that reason is usually 'not enough oil.'"

It takes years and years of experience to learn all the tricks a motor can play. It takes even more experience to turn out a good reliable motor: oil year after year with a uniform high quality. We have been at it from the earliest days of motoring and we are still improving our products. The latest "Standard" Motor Oil is one especially refined for Ford cars. Gives you easy starting, easy stopping and quiet bands. Try it next time you drain your crank case and note the difference.

SICK WOMEN ATTENTION!

Read this Remarkable Testimony Regarding Results from Taking Lydia E. Pinkham's Vegetable Compound

Norfolk, Virginia.—"If you only knew how many women and girls have taken your medicine by hearing my testimony, it would seem wonderful to you. Every day and every chance I have I advise some one to try it. It was in June, 1904, when I had given up to never get well, that I wrote to you. My husband went to the drug-store and brought the Vegetable Compound home to me. In a few days I began to improve and I have often taken it since. I am now passing through the Change of Life and still stick by it and am enjoying wonderful health. When I first started with your medicine I was a mere shadow. My health seemed to be gone. The best doctor I had said he would give me no more local treatments unless I went to the Hospital and was operated on. That was when I gave the doctors up. Now I am a healthy robust woman. I wish I could tell the world what a wonderful medicine Lydia E. Pinkham's Vegetable Compound is. I will be only too glad to answer letters from anywhere. I wish all sick women would take it."—Mrs. J. A. Jones, 217 Colley Avenue, Norfolk, Virginia.
