The Concrete Barnyard

on the farm of Daniel Wolfinger at Rocky Mount, Md.

A Concrete Barnyard will make your work easier, keep your stock in better condition, and make your whole place more profitable.

Good Concrete Improvements add a dollars-and-cents value to farm property far in excess of their small cost. They save the time and money now spent in repairing broken-down fences, buildings and other equipment. They make the farmer's daily work easier; keep his stock in better condition; save feed now wasted; and make his farm more efficient and more profitable.

Any farmer can improve his place with Concrete because the things which make Concrete are the easiest materials for the farmer to work with. He can do the work himself, in spare time, and for very few dollars can have needed Concrete Improvements that will be worth many times what they cost. Ask any Security Cement dealer how you can put in needed improvements; or write direct to the manufacturer.

CHANGE OF LIFE

Virginia Lady Improved After She Took Cardui.

"I had been going through the change of life and it seemed to me that everything got wrong," says Mrs. Deala Hawkins, of Bristol, Va. "I suffered from shortness of breath and I could not go up the steps without stopping to rest several times.
"When I would try to hoe in my garden I would soon give out. I could scarcely hoe two rows before my breath was coming in gasps.
"My sister-in-law had taken Cardui and she thought it might do me good, so she told me to try it. I got a bottle (of Cardui) and began to take it by the directions and I began to improve after a few doses. My general condition was so much better after the first bottle that I got another, and another, until I had taken six. Now I am a well woman.
"Cardui is a great medicine. Since I took it I feel like a new woman. I had had trouble for years. I am glad to recommend to other women a medicine which has helped me."
At all drug stores. C-38
