DEMOCRATIC OPPORTUNITY.

It is not an unknown experience for the Democracy of this country that its trusted leaders should prove faithless, its prophets dumb, Orleans. The writer of the letter, or that it should languish in defeat. Any party that really seeks the public good must be content at times to battle in the face of apparently hopeless conditions.

Such has been the condition of the Democracy during the past three years in a majority of the States of the Union. But Democracy is a cause more than it is a party. It represents the eternal struggle of humanity toward a greater equality of conditions. Hence the party is always strength ened rather than weakened by defeat. It is brought nearer the toiling, suffering masses. It gains strength from contact with them. It learns wisdom in adversity. A revival of Democratic rule throughout the country seems to be at hand. It is presaged by many signs. Chiefly it will be brought about by a reunion of Democratic factions owing to new conditions, and through a failure of the combined forces of wealth and monop oly to carry out their promises to the deluded voters. The Republican party is relying upon a season of good crops, and the failure of European harvests, to float an impracticable monopoly tariff, a

tyranical financial policy, and increasingly onerous taxes both in the Federal Government and in every State and local community where it holds power.

It is not probable that the bounty of Providence, which has checked a disastrous panic and afforded the people a temporary relief, will avail to rescue Republican policy from the failure it has merited. The "cribbed, cabined, and confined" energies of American labor are becoming explosive forces. They will not down at the behest of the moneyed classes. The currency must be reformed; the tariff must be reduced to an honest revenue basis; outrageous extrava

gance and unequal and burdensome taxation must be corrected. The Democracy will devote itself to these great reforms, and it will succeed. The people demand more money

and its proper distribution in the channels of trade. They demand more profitable work and plenty of it. They demand reduced taxes and the proper assessment of accumulated wealth in the distri-

It is too late for Spain to want to grant autonomy to Cuba. The Cubans are too near the goal of all their hopes, reached through blood and treasure, to accept anything less than absolute independence of Spain. They will likely accept nothing less. For spain to desire a part in governing them, after such oppression, is impudence: and to ask them to pay the cost of the war against themselves, brought on by Spanish cruelty, is insult added to injury.

Real Hargain

"Did you ever notice," said a veteran consorial artist, who had shaved New Haveners since 1878, to a New Haven Register man, "that you only see a few old barbers?" "Why is it?"

"Why is M?" "There are a good many reasons." answered the voteran knight of the blade. "I suppose the chief one is that a barber's hand becomes unsteady after he gets to be about 40 years old and he has to give up. A good many barbers drink hard, and that makes their nerves and hands unfit for service, and they retire before they cut their customers throats. Still, I will say that in all my experience of 37 years I never saw a

Some of them, of course, go into other business, perhaps bookselling or else be come insurance agents. I have heard of barbers who gave up the business became butchers. This isn't such a wide difference from their former business (what are you laughing at?) as it might eem. helping the young Kentuckian to win his suit. Lincoln was merely an attor ney, waiting for one of his cases to be called, when the incident occurred. Ex-Senator Blackburn was only 20 years old when he began the practice of law, having graduated at Centre college, Danville, Ky. MY MAMMA'S HANDS. THE CHILI QUEENS. I wish you'd see my mamma's hands And the things that they can do. She says they're "very ugly ones," But I don't believe shat's true.

THEIR THRONES WERE IN SAN AN TONIO'S HISTORIC ALAMO.

Their Reign Is Ended, but They Raled Royally For a Long Time-They Were Especially Gracious to the Tourist From the North and Made It Pay.

When the northern tourist used to strike the town, the first things the patriotic citizen who was doing the hon ors would proudly steer him up against would be the Alamo plaza chili stand, with its attendant divinity, the far famed chili queen.

"Now, sir, you've seen the historic Alamo, the old cathedral and the missions and got a whiff of our ozone," the citizen would remark with righteous pride, "and tonight you must come and eat a Mexican supper and see the chili queens. The chili queens are one of our most noted attractions-the beautiful dark eyed senoritas, you know."

The tourist generally knew. This was in the late eightics, the palmy days of the chili queens, when their fame had spread to the larger northern cities. Some very musical verse about them had appeared in the magazines, and in the newspaper sketches they were idealized as stunning creatures, with the rich, brown skins of the tropics and the languorous grace and bowitching black eyes of Spanish donnas.

When the citizen and the tourist stroll up to the gay looking chili stand with its big red, green and yellow lan-terns and its scintillating pyramids of cheap but gorgeous glassware, she promptly shuts up the sporty young man who & bandving slang with her or quits haggling with the chili gorged to Mr. Arnold's pleadings in the cause, bootblack over change. PROSPERITY.

The American voter has always been fed more or less by cunning form that squarely endorses that politicians on delusive hopes of "prosperity." The Republican party, indeed, has made this slogan the stock in-trade since the wearing out of the sectional and war issues. To promise prosperity through the results of high tariff taxation is its unfailing resource when all other means of deluding the people fail.

The truth is, that the Government can only affect the prosperity of the people through the power of taxation or by manipulating the currency. Beyond these resources of craft or statesmanship, the prosperity of the people depends solely on their own industry and the bounty of Providence. Every student of political economy knows nificent six-story structure was this and the common people, who this, and the common people, who have not time for abstruse studies, have begun to learn it through sad experience.

The policy of equitable taxation and low tariff has not had a trial in this country since the ante-war period. We have had a continuous tion since 1861. That the country has progressed under it has been due entirely to the opening of vast new fields of fertile soil and mineral wealth.
