IMPRISONNENT FOR DEBT.

In this issue it will be seen that the Sheriff is forced to do what law of the last Legislature requires him to do, to indict and have fined or imprisoned those who after a certain time do not pay their taxes. Impresentent may be for x months or a hus of \$505 Read the Sheriff's notice.

Would not the selling of prop erty be sufficient without going back to such a law of the dark ages as fixing or imprisoning a man for non-payment of taxes What the State wants is the money for taxes due. This can be had out of the property, instead of the fine collected, and loss, to say nothing of the disgrace of imprisonment for unfortunate inability to pay taxes. It a man will not pay, he can be sold out, which should be satisfactory punishment, especially when the State has its money-ai claim's settled.

There are a number of honest, well meaning: citizens; who these hard times, especially in the few years that that were financially unable to meet their taxes with o her pressing obligations of the plantation, the home and the famity, and to sell out such men is hard enough, but to imprison them Is an outrage upon civilization and entirely unnecessary.

Bimetallism is not dead, but liveth. These lessons are taught by the elections. And, more, these are long straws painting to Democratic success in 1808 and 1900. Let the band play:

UNFAIR CRITICISM.

The harsh and uncalled for criticism of the graduates of the Asheville Normal and Collegiate Institute by County Superintedent Jer vis of Madison county, is surprising in its incorrectness and seeming maliciousness. Mr. Jervis wrote to Superintendent Mebane that the graduates of the above school if placed under a rigid examination could not get a second grade certificate, yet he gave to a pupil of that school a first grade certificate when she lacked four years of graduation. The graduates of this school are by law admitted to teach in the public schools of the State, is are the graduates or the State Normal College at Greensboro, without further established on, and the Asheville school is one of as high a grade, or nearly so, as that of Greensboros (O) course the criticism is multure. And more, the State Superintendent seems to listen to this instructule. We Cuban bondholders! know much here of Dr. Lawrence, the president, and of his school, and the abuve attack must be a wanton one or a big, huriful blunder.
