COMMUNICATIONS.

What People Think on Different Subjects.

MR. EDITOR:—In the issue of the Marion RECORD of May 17th was an article showing conclusively that McDowell county and not Burke was entitled to of the Senators for this district. The facts were there made to appear that already since this senatorial district was formed McDowell has had four senators and Burke has had five. Both counties had senators in 1891. Neither had a senator in 1893. If Burke should nominate a senator this time, she would have had six—while McDowell has only had four. If the latter names the senator this time, they will be even, to wit five and five. Nothing but the ingenuity of Burke county in casting a round for a reason why she should have an office could furnish a pretense for an answer to what appears from the above to be the justice of McDowell's claim.

In the Morganton Herald of May 24th '94 there is an effort to show that Burke is entitled to the senator instead of McDowell. The reason assigned for this contention is that the two counties, Caldwell and Burke, cast as large a Democratic vote as the three counties, McDowell, Mitchell and Yancey. The Democratic vote cast in the counties does not determine the matter at all, but if it did, Burke's claim would not be helped. The large Democratic majority which Burke and Caldwell give comes principally from Caldwell. If Burke will join itself to Mitchell and Yancey, and figure up this joint Democratic majority, it will find that it is not as satisfactory as when added to Caldwell's majority. In fact it is the old story of the man who climbed into the loft and left his wife to fight the bear, and when Nancy had vanquished Bruin, he descended and exclaimed in triumph, "Nancy a'int we horses in a bear fight!"

In 1892 Burke's majority for Cleveland over the combined vote of the opposition was only 80, while Caldwell's majority was 265, and McDowell's majority for Cleveland over all opposition was 255. Why then should Burke be entitled to a senator because of Caldwell's Democratic majority. If that were the test Mitchell would never be entitled to a senator, for she always gives a Republican majority, while she has some of the bravest, best and most patriotic Democrats in her borders that ever lived in any country. McDowell is modest and is willing to accord to her Democratic sisters in Yancey, and the patriotic borderers of Burke (to whom all honor is due) such offices as they may be entitled to, but it seems allow her to contend for her rights. Is it possible that Burke always has well grounded claims for her demands for office and that her Supreme Court Justice, her Superior Court Judge, her State Treasurer and Chairman of the State Railway Commission, and claim for United States Senator to succeed Vance is but her rights? Does she think she is entitled to all these offices because she adjoins a county that universally gives a large Democratic majority, or because she gives a very small Democratic majority herself? Let our friends in Burke take another view of the situation and concede to McDowell her rights, as has always been done to Burke.

Let our friends leave out the vote of Caldwell, Mitchell and Yancey and compare the vote of McDowell and Burke for the past 10 or 20 years, and then they will see that their only claim to a senator this year is that Burke is east of McDowell and geographically lies next to a safe Democratic county. McDowell is entitled to the Senator this year and there is no such custom as to give a county the Senator oftener than she is entitled to, because she lies in the eastern part of the district. We have given away heretofore to secure harmony, but we do not think we should do so always.

Mr. Editor:—I notice in the RECORD of last week an article recommending Mr. Ed Justice for the nomination for Senator, to represent this district in the next legislature. I wish to express my hearty approval and endorsement of that communication. I think Mr. Justice would represent McDowell and the entire district with honor to himself and with honor to the people of the whole district. Mr. Justice is a man of fine learning and of great intellectual force, a fine speaker and a genteman, and in endorsing him for the nomination I think I voice the sentiment of all the Democrats of my township.

"FINLEYS."

Will Give Burke Justice.

Nealsville, May 31, '94.

Mr. Editor:—As the RECORD has clearly shown that McDowell county is entitled to one representative in the State Senate, I desire to endorse a gentleman whose name has already been suggested—Mr E. J. Justice. He will make a fine canvass, and also a splendid representative. He has the ability to represent us with credit, and is popular everywhere he is known. Burke county, as usual, urges a Burke county man for the man, but McDowell is willing to give Burke Justice in this case, and Ed Justice will make the district proud of its representative. VOTER.

Bakersville, N. C.,
May, 22nd 1894.

Editor Marion Record:—I saw in a recent issue of your paper a communication recommending Col. J. F. Morphew, to represent this district in the next Senate. I do not know of a man who could carry a larger vote in this county than he, if he would accept the nomination, and I feel confident we can give him an overwhelming majority. If he is not and will run for the Senate I am satisfied that by reason of his many friends and popularity here, he is the strongest man in this county that could possibly be put out. Our people know him to be a staunch Democrat and a man who would make an able advocate of the rights of the people in the Senate.
