#### President Discusses European War, Peace and American Business.

Omaha, Neb., Oct. 5.—President Wilson discussed the European war, peace and American business in three speeches here today. He declared America is as ready to fight as any nation in the world, but that its cause must be just. After the war, he said, this nation

must join a league of nations to preserve the peace of the world.

The president was cheered by thousands during the day. The size of the crowds and the enthusiasm shown far exceeded anything he has experienced since his inauguration.

#### U. S. Campaigns to Help Armenians and Syrians.

The greatest American relief campaign to be undertaken since organization of the Belgian Relief Commission has been launched by the American Committee for Armenian and Syrian Relief. An exhaustive summary of the whole Armenian and Syrian situation has been made public and will be sent to ministers of 120,000 churches all over the country and to many leading citizens and relief organizations. A fund of \$5,000,000 is called for to relieve 1,000,000 destitute, exiled, and starving Armenians and Syrians, scattered broadcast over Turkey, Persia, Syria and Palestine.

The appeal declares that of nearly 2,000,000 Armenians originally in their native country, three quarters of a million have been massacred or have died of wounds, disease or exhaustion since the war began.

#### Buffalo and Elk to Be Fenced in Pisgah Forest.

Two corporations, the United States Steel Company and the American Steel Wire Company, will furnish free all the wire fencing for the big game enclosure in Pisgah national forest in the vicinity of Asheville and will also send a competent man to superintend the construction of the fence.

The United States Forestry service has proposed to send a herd of buffalo and elk to be turned loose in the forest, which is government property, if an enclosure could be provided. Asheville and Buncombe county subscribed \$1,000 and the steel companies were asked for a contribution. Instead of a contribution they gave all the fencing necessary and will superintend the construction.

Iredell county farmers have decided not to hold a fair this fall, the attempt to organize not meeting with success.

Sanitary instruction is even more important than sanitary legislation.

#### NOT ENOUGH CHILDREN

ever receive the proper balance of food to sufficiently nourish both body and brain during the growing period when nature's demands are greater than in mature life. This is shown in so many pale faces, lean bodies, frequent colds, and lack of ambition.

For all such children we say with unmistakable earnestness: They need Scott's Emulsion, and need it now. It possesses in concentrated form the very food elements to enrich their blood. It changes weakness to strength; it makes them sturdy and strong. No alcohol.
