There's peace in the household guarded by Castoria. Peaceful sleep for Baby. Uninterrupted rest for Mother. For a few drops of pure Castoria will quiet any fretful infant. Or put the little one back to sleep when there's an upset during the night.

Parents, don't try to do without good old Castoria! It isn't fair to the baby, and it makes things hard for you. You can't give Baby medicine meant for grown-ups—or shouldn't! Castoria is the solution. It is always safe. It always does the work. And although it acts as swiftly as an opiate or a narcotic, it contains neither. Castoria is purely vegetable. Give it whenever there's constipation, colic, diarrhea.

No less than five million modern mothers have come to depend on Castoria, for twenty-five million bottles were bought last year! Get yours today; don't wait for some night when it's needed, and the drugstore is closed!

WHAT DR. CALDWELL LEARNED IN 47 YEARS PRACTICE

A physician watched the results of constipation for 47 years, and believed that no matter how careful people are of their health, diet and exercise, constipation will occur from time to time. Of next importance, then, is how to treat it when it comes. Dr. Caldwell always was in favor of getting as close to nature as possible, hence his remedy for constipation, known as Dr. Caldwell's Syrup Pepsin, is a mild vegetable compound. It can not harm the system and is not habit forming. Syrup Pepsin is pleasant-tasting, and youngsters love it.

Dr. Caldwell did not approve of drastic physics and purges. He did not believe they were good for anybody's system. In a practice of 47 years he never saw any reason for their use when Syrup Pepsin will empty the bowels just as promptly.

Do not let a day go by without a bowel movement. Do not sit and hope, but go to the nearest druggist and get one of the generous bottles of Dr. Caldwell's Syrup Pepsin, or write "Syrup Pepsin," Dept. BB, Monticello, Illinois, for free trial bottle.

## Community Building

### Home Ownership Puts Stamp on Character

The man who owns his home provides an entirely different environment for his children than he who rents. There is a normal, wholesome atmosphere whose beneficial influence will last through life. Children reared in their own homes have the supreme advantage of a domestic sentiment which is one of the most valuable and cherished of virtues.

Home ownership stamps an individual as a man of character. His employers realize that he has an aim in life, and, because of his integrity, he is taken into their confidence and is often entrusted to invest their money, since he knew how to invest his own. Perhaps the best certificate of respect, the best guarantee of self reliance and character, is a title to one's own home.

The home owner is a vital factor in any community because his home represents an investment in it. He is a direct taxpayer. Hence he takes an active interest in local government and in all civic affairs. In relation to this advantage an authority on home ownership, said: "I cannot agree with people who are predicting that the world is in a fearful state because things are not done in the old-fashioned way. No land is doomed when the people own their home. Their interest in their country will never wane and that nation is permanent and safe."

### Profitable Uses for Vacant Store Windows

Vacant stores on the street frontage of office buildings somehow seem always to look conspicuously barren and unfinished in spite of the use of concealing paint on their windows. They are about the first thing that a prospective tenant sees as he approaches a building. And certainly they do their building no good from a rental standpoint.

Yet the finding of a desirable and profitable tenant sometimes requires a considerable period of time. One expedient to eliminate these unsightly, empty windows is their use as display space for retail merchants or manufacturers. There seems to be an increasing interest in this practice.

Where merchants are crowded for display space they can generally be shown the possibilities of using window space without renting an additional store. And, in most cases, even a small income from vacant stores, with the added value of improved appearance, is well worth the building owner's consideration.—Detroit News.

### Defining Traffic Lanes

The system of marking the center of the roadway with a stripe of color has been found so beneficial to traffic in general in the state of California it is now being widely employed not only at intersections, on blind curves and on narrow bridges, as was the practice in the past, but also on winding roads in mountainous country and on four-lane trunk highways. By plainly indicating the several traffic lanes on these wide, level roads, it is possible to keep the slower-moving vehicles in the outer lanes, leaving the inner ones for high-speed cars. By the use of the marking many collisions are avoided. Three hundred miles of the state highway have been thus marked and the work is being rapidly extended. In the first white paint was used, but this has given way to one of bright orange.

### Placing Shrubbery

In growing shrubs and trees to get the best results they should be allowed to grow naturally, unless they are to be shaped to conform to a set pattern; and it is important to place them in their new location in the same position relative to the sunlight to which they have been accustomed. They will usually incline a trifle toward the sun. Set them so this inclination need not be changed, as it will take energy to change it. In the open, plants will incline slightly toward the south; but in sheltered and partly shaded places they will bend in the direction from which the sun shines upon them.

### Boost! Don't Knock!

One of the worst liabilities a town can have is the chronic knocker, and every town has him. He is prolific in condemnation, in criticism, in derogatory proclamation, but seldom offers anything of constructive value to assist or cure conditions which he says exist. It should be the duty of every citizen of Fort Payne and community to labor earnestly, intensively, patriotically, to boost and make this an even better community.—DeKalb County (Ga.) Herald.

### Discounting Fire Danger.

Under an ordinance passed 12 years ago, the city of Macon, Ga., should soon be non-combustible. The city building inspector is to enforce a law that every shingle or combustible roof must be replaced.

### Shrubbery on Highways

Women's clubs and other organizations are fostering the planting of trees and shrubbery along roads and highways.
