WHEN CHILDREN Need a Laxative

"We have used Theford's Black-Draught in our family for nineteen years. I have found it of great help in raising my family. I have given it to all six of my children. Whenever they complain of upset stomach, or begin to look pale and sickly, I make a tea of Black-Draught and begin giving it to them. In a day or two they are all right. I give it to them for constipation, and my husband and I both take it. I always give it for colds in winter, for I believe a way to prevent them is to keep the system clean." —Mrs. Doshie Terry, 1205 Fourth Avenue, Decatur, Ala.

NOTICE

J. L. LAUGHRIDGE,

SCHOOL BUS DRIVERS CAUTIONED BY ALLEN

Raleigh, Dec. 10.—"The safety of our school children should be constantly looked after," State Superintendent A. T. Allen points out in a statement given out today. "North Carolina," he says, "is now transporting nearly 150,000 pupils to school. The lives of these children as well as those who walk must be protected at all times. It is a sad thing to hear of an accident happening to one of these little ones."

Superintendent Allen believes that if care and diligence is observed on the part of the motoring public that such occurrences may be kept at a minimum. In order to acquaint the public with the traffic laws in force, the General Assembly of 1927 passed an act requiring that such laws shall be read and explained in the public high schools. The rules referring specifically to school busses, and which are not always observed, are:

Rule 63, (section 5). "Before passing or attempting to pass a public school bus while it is standing upon any public road and taking on or putting off school children, the operator of the passing vehicle must bring it to a full stop at least 50 feet from the bus." The responsibility, however, does not all rest upon the driver of the passing vehicle, for section 3 of this rule states, "Every school truck and every passenger bus, is required to come to a complete stop at every railroad crossing, whether designated as a 'full stop' crossing or not."

Rule 84, (section 7). "Twenty-five miles an hour while operating a bus carrying school children along any public highway or street in this State," is the maximum rate of speed permissible.

Rule 45 is one which applies to all drivers and one which aims to impress operators of motor vehicles with the necessity of exercising care at all times.
