THE FOLLOWING figures for typical  
states from each section of the United  
States indicate the relative amounts  
which the states of these sections pay  
for the common school education of their  
children. North Carolina spends an-  
nually an average of \$1.92 for the com-  
mon school education of each child of  
school age in the state; Mississippi \$2.06;  
Tennessee \$1.23; Kentucky \$3.32; Texas  
\$3.63; Minnesota \$8.63; Kansas \$8.76;  
Michigan \$8.90; Ohio \$9.94; Illinois  
\$11.17; New York \$10.91; California  
\$16.44; Massachusetts \$17.79. In each  
state the number of persons between the  
ages of five and twenty years old is  
reckoned as the school population. It is  
easily seen that several states in other  
sections pay from four to eight times as  
much for the education of each child of  
school age as the states representing the  
Southern section.

A NEWLY PATENTED German  
process for soldering cast iron is  
said to give a strength equal to that of  
the iron itself. After first pickling the  
surfaces with acid, the pieces are fasten-  
ed together. The joint is covered with a  
paste of cuprous oxide and borax, and  
the metal is heated to redness. The  
melted borax protects against oxidation

from the air. Heating causes the cu-  
prous oxide to give up its oxygen, which  
burns the carbon of the cast iron sur-  
faces and metallic copper is separated in  
fine sub-division. Hard solder is finally  
applied, which in melting, forms an al-  
loy with the copper; the alloy combining  
with the decarburized surfaces of the  
cast iron.

## IN MR. CLARK'S HONOR.

### Guests at The Berkshire Celebrate Anniversary of his Birth.

The guests of The Berkshire observed  
the anniversary of the birth of Mr. D.  
N. Clark of Westfield, Conn., Monday  
night, with a jolly birthday party in  
which everyone participated. The pro-  
gram of the evening was mainly a pack-  
age or "snipping" party in which the  
company cut mysterious packages from  
a clothes line, blindfolded. During  
the evening Mr. Clark was given two  
very handsome presents by the guests.  
At the close a birthday cake was cut and  
served with lemonade. The affair was  
arranged by Miss Hutchinson of Bur-  
lington, Vt., Mrs. A. T. Leavitt of Wol-  
laston, Mass.; Mrs. A. L. Goodrich of  
Boston, and Miss Brackett of Fall River.

### Mrs. Ketcham Entertains.

Mrs. Arthur C. Ketcham, of New York  
City, gave a select hearts' party at The  
Holly Inn, Friday afternoon. The  
prizes were won by Mrs. J. R. Whitte-  
more, of Erie, Pa.; Mrs. Charles Good-  
win, of Baltimore, and Miss Post of New  
York City. There were also present  
Mrs. Carl Gildersleeve, Mrs. H. A. Cray  
Miss Cray, Warren, Pa.; Mrs. L. M.  
Lawrie, Pittsburgh, Pa.; Mrs. F. J.  
Bailey, Chicago; Mrs. W. T. Jenney,  
Medford, Mass.; Mrs. M. A. Crockett,  
Buffalo, N. Y.; Mrs. E. G. Hayes, Can-  
andaigua, N. Y.; Miss Check, East  
Orange, N. J.; Miss Bradbury, Provi-  
dence, R. I., and Mrs. A. I. Creamer.  
A dainty lunch followed the play.

## A CLEVER DEVICE.

### J. A. Sherrard is Inventor of Bot- tle Tap.

J. A. Sherrard, of The Carolina, has  
invented a bottle and demijohn tap which  
is a boon to hotel and medical men, who  
desire to use bottled liquids in small  
quantities, preserving the balance for  
future use in perfect condition.

The tap is radically different from oth-  
ers of a similar nature which are on the  
market. The tap screws into the cork  
of the bottle without disturbing it, and  
consists of a tubular conduit, a tube  
within a tube, one for forcing air into  
the bottle and the other for letting the  
liquid out. Provision is made for at-  
taching an air pump, which makes it  
possible to force out the entire contents  
of the retainer even if the liquid is un-  
charged.

While the special field of the tap is  
for hotels, hospitals and the like, it will  
meet a long-felt want among families as  
well; in fact, is adapted for anyone who  
is desirous of using part of a bottle and  
preserving the remainder. Mr. Sherrard  
has secured an American patent and has  
applied for foreign rights, and his ulti-  
mate aim is to form a stock company for  
the manufacture of the device.

## COMES WITH YEARS

The best trade does not drop down on  
a store all at once. It comes with years.  
It comes when the store has proven be-  
yond a doubt its trustworthiness to each  
best customer. We invite you to allow  
us the privilege of proving this to you.

We want your trade, but all we ask is  
a chance to demonstrate that we deserve  
it because of the superior satisfaction  
that we give to our customers.

Everything found in first-class Phar-  
macies, you will find here.
