IDEAL PORTABLE COTTAGES

Just what is wanted at Southern winter resorts.

They are used extensively by the richest and best New England families at the resorts in New England. As my business is slack during the winter months I am offering to prepay freight charges on Southern orders until April. After that time my New England trade is more than I can handle.

Send for 80 page Illustrated catalogue.

E. F. HODGSON, Box 113, DOVER, MASS.

NOTE.—The finalists in the match-play rounds may also compete in the handicap event by handing in their medal scores for the *first* eighteen holes.

A VICTIM OF CONSCIENCE.

A Truthful Picture of the Every Day Life of the Jewish People.

"A Victim of Conscience," by Maurice Goldsmith (Henry T. Coates & Co., Philadelphia, publishers) fulfills the promise of the author in the preface. It "Portrays characters but little known and frequently misunderstood; it analyzes a creed at varience with the prevailing faith, and its heroes are humble folk, with intensely human characteristics; with sterling qualities and corresponding shortcomings."

To be sure it has a plot and several courtships are begun and several marriages consummated, but it is a picture of the private every day life of the Jewish people—in business, in church and in society—that the book should be considered and as such it takes its place with the best of its kind.

Had the author eliminated an attempt to create something "excitin'" by picturing the remorse suffered by the principal character at killing a worthless drunken sot, the volume would have contained little to criticise. That a sensible man who killed a brute by accident and in self defense, should suffer life-long remorse for the act, is so far beyond the comprehension of a sensible man as to be positively annoying, if not disgusting.

Christmas Catalogs.

Little, Brown & Co., the Boston publishers, have just issued a 40-page holiday catalog, with the cover design printed in four colors.

F. J. BAILEY WINNER!

Takes Net Score Cup in Saturday's Tournament by Single Stroke.

H. H. Fox of Cambridge a Close Second in Eighty-Eight—The Scores in Detail.

Saturday's eighteen hole handicap medal play golf tournament developed a very close contest between F. J. Bailey of Chicago, and H. H. Fox of Cambridge, Mr. Bailey, winning by a single stroke with a net score of eighty-seven.

F. Walter Hentz of Philadelphia, played a consistent game going out in fifty and coming in in fifty-three, and netting eighty-nine.

Among other participants were Mr. and Mrs. Brenton M. Tomkins, Short Hills, N. J.; J. Henry Hentz, Jr., J. Henry Hentz, 3d, Philadelphia; E. C. Johnson N. Y.; C. M. Brett, Boston.

The scores in detail:

	Out	In	Gr	Hp	Net
Bailey	56	46	102	15	87
Fox	50	49	99	11	88
Hentz, F. W.,	50	53	103	14	89
Brett	50	55	105	10	95
Johnson	56	51	107	12	95
Tomkins	57	59	116	18	98
Hentz, J. H., 3d,	50	61	111	12	99
Hentz, J. H. Jr.,	62	59	121	15	106
Tomkins, Mrs.	64	69	133	25	108

FASCINATING FIGURES.

An Amusement for the Idle, Better than Solitaire.

Here you have some interesting examples of figure juggling:

123456789 times 9 plus 10 equals 1111111111
123456789 times 18 plus 20 equals 2222222222
123456789 times 27 plus 30 equals 3333333333
123456789 times 36 plus 40 equals 4444444444
123456789 times 45 plus 50 equals 5555555555
123456789 times 54 plus 60 equals 6666666666
123456789 times 63 plus 70 equals 7777777777
123456789 times 72 plus 80 equals 8888888888
123456789 times 81 plus 90 equals 9999999999

This table is still more interesting when it is noticed that each multiplier is divisible by 9 and that, when the figures of each answer are added together and the added number is subtracted, the answer is 0. For example, the sum of 1111111111 is 10, which minus 10 is 0.

987654321 times 9 equals 8888888889
987654321 times 18 equals 17777777778
987654321 times 28 equals 26666666667
987654321 times 36 equals 35555555556
987654321 times 45 equals 44444444445
987654321 times 54 equals 53333333334
987654321 times 63 equals 62222222223
987654321 times 72 equals 71111111112
987654321 times 31 equals 80000000001

In this table it will also be noticed that each multiplier is divisible by 9, and that if the figures in each answer are added together they will form a total, which, if added together, will equal 9. For example, take the second answer, 17777777778. These figures added together, equal 72, and 7 plus 2 is 9.—*London Tit-Bits.*
