STANDING ROOM ONLY.

This Sign Would be in Order at The Berkshire These Days.

The Berkshire is filled to the doors and the demand for accommodations is far beyond the supply. "I believe I could fill one hundred more rooms if I had them," said Manager Sherrard, Tuesday morning.

The company gathered has never been a more congenial one and informal social pleasures are being made much of.

AMONG THE GUESTS.

Mr. and Mrs. J. T. Chase, Master Russell P. Chase, and Miss Laura E. Chase, Melrose, Mass., come for the season.

Mr. and Mrs. M. R. Hubbs, Brooklyn, are located here for an extended sojourn.

Mrs. Clinton L. Conkling and Miss Katherine Conkling, Springfield, Ill., will remain until April.

Miss Edith Hutchinson, Burlington, Vt., comes for her second season, welcomed by former acquaintances.

Miss Amelia P. Welles, Towanda, Pa., joins her parents.

Rev. and Mrs. Thomas Worroll, Easthampton, Mass., are here for a short visit.

Mr. and Mrs. C. H. Ames, New Hampshire, were recent guests.

Mrs. Walter K. Gregory and Miss Beatrice H. Gregory, Danville, N. Y., are among the guests.

Mr. Gordon Hill, Boston, will make a long visit.

Mr. H. A. Waldron, Providence, is here for the season.

WAITING FOR ROOMS.

Guests Booked in Anticipation of Departures.

Manager Abbott of The Harvard has been obliged to establish a waiting list upon which he is placing the names of guests who will come as soon as departures of guests make room for them. The house has been crowded for several weeks past, and at present, rooms in the annex cottage, Franklin Chambers and Casino are being brought into play to provide for the overflow.

AMONG THE GUESTS.

Mrs. Herman Wendell, Master Douglas Wendell and Miss Frances Cary Wayne, Pa., are here for the season.

Mr. James C. Furst and Mr. E. H. Chidsey, Bellfonte, Pa., come to remain some weeks.

Mr. and Mrs. Alfred J. Moran, Brooklyn, are located here for a few weeks.

Mr. and Mrs. H. U. Howes, Philadelphia, were recent visitors.

AT FORTRESS MONROE.

Brilliant Social Functions are a Feature of Life There.

FORTRESS MONROE, VA., Feb. 16—Old Point is taking on an air so gay and festive under the influence of the bright sunshine, that we are admonished there is "no need to journey further South to meet the Spring." The sun parlor and the great south piazza of The Chambelin which command such an extensive view of Hampton Roads, are both favorite resorts in the early morning, as well as at five o'clock tea when every one finds it just the place in which to loiter for an hour.

Social pleasures are many. Mrs. John Kimberly gave a delightful card party which was followed by a sumptuous supper. Seven-hand euchre was played.

A progressive dinner given by Mr. and Mrs. George F. Adams was one of the most elaborate functions of the season. Eight tables were used with covers for thirteenth-two were laid. The decorations, consisting of violets, lillies of the valley, sweet peas, carnations and smilax were very effective. A dance in the Administration Building followed.

Mrs. J. E. Johnson of Longdale, Virginia, entertained at dinner recently, Capt. and Mrs. Clarence P. Townsley.

Recent New York guests include: Mr. and Mrs. Thomas B. Fraade, Mr. and Mrs. W. R. Houghtaling, Mr. and Mrs. A. S. Hoffman, Mr. and Mrs. Frank A. Kensing, Mr. and Mrs. S. H. Powell, Mr. and Mrs. George Autonrith, Mr. and Mrs. Davis Townsend, Mrs. George H. Wooster and maid, Mrs. Katherine Murtaugh, Mr. and Mrs. F. S. Cookwan, Mr. and Mrs. M. J. Sanger, Mr. and Mrs. John A. Holden, Mr. and Mrs. M. Gugenheim, Mr. F. W. Lyons, Mr. J. Powdermaker, Mr. R. T. Scarborough, Mr. H. S. Bitner, Mr. O. J. Woodley, Mr. George C. James, Mr. J. Berre King, Master Davis King, Mr. Thomas W. Kohlsatt, Mr. C. R. Woodward.

PINEHURST WATER.

A pure soft water taken in large quantities is as essential to the health of the body as is pure air.

The Management takes pleasure in submitting the following analysis made by the highest authority obtainable, which shows conclusively that Pinehurst Water may be taken by anyone with advantage and that owing to its freedom from iron and lime salts, it is especially valuable to anyone suffering from rheumatic or gouty tendencies.

The chemical analysis of the water is as follows:

Free Ammonia	.0254
Albuminoid Ammonia	.0016
Nitrogen as Nitrates	.1400
Nitrogen as Nitrites	Absent
Chlorine	.38
Fixed residue	1.40
Volatile residue	0.80
Total residue	2.20
Hardness	0.33

The following is a letter from Dr. Charles Harrington of the Laboratory of Hygiene, Harvard Medical School:

The water referred to contains about as little lime as any water I have ever examined; in fact, all of the mineral matters together amount to 1.40 parts per 100,000 and in that respect the water is extraordinary. Hardness is due chiefly to lime salts, but I cannot recall a water in which I have observed so slight a hardness as 1.3 degree and hence so little lime, with one exception, and that was in my mind when I wrote the opening sentence—a specimen of fresh rain water. As to iron, if there is any in Pinehurst Water, it cannot be detected in the amount submitted.
