

The Pinehurst Outlook

PINEHURST, MOORE COUNTY, NORTH CAROLINA.

DURING THE COMING SUMMER!

**Much Will Be Done to Keep Village
Abreast With its Rapid Growth.**

**New Dairy to be Built and Utility
Plants Perfected--Golf Course
Improvements--Other Plans.**

PINEHURST will be the scene of activity during the coming summer for much is to be done to keep the equipment of the Village abreast with its remarkable growth, which has been so forcibly brought to notice by the success of the season just ending.

THE UTILITY PLANTS.

Among the most important of this work will be the perfection of the various utility plants, for the ultimate aim is to have these supply the entire needs of the Village; to make Pinehurst complete unto itself.

The foundations for the new Dairy are already in and the building will be completed during the summer. Here the milk and cream will be cared for and prepared for sending out with scrupulous care and during the summer season, surplus cream converted into butter.

The raising of fodder and garden vegetables which was so successfully carried on last summer, will be continued upon a larger scale this year and with increased results.

The Poultry Farm is making rapid growth and becoming more and more an important factor in the food supply problem, and the equipment is being rapidly increased.

The Market Garden is giving larger returns each year.

AT THE POWER HOUSE.

The work is remodelling the Power House and the installation of new machinery, much of which has already arrived, will be completed before fall and the result will be a duplicate equipment throughout which will make it possible

to carry out the work of this department without interruption, even in cases of accident and emergency.

THE NEW SCHOOLHOUSE.

Work upon the new schoolhouse has progressed rapidly and will be completed before fall. The new building will be modern in every particular and will include class and recitation rooms, not only for the new Preparatory School established last year, and the Kindergarten begun in January; but the long established Upper and Lower Schools as well. Head Master Aldice G. Warren will again be in charge.

in excess of the supply, some sixty in number.

GOLF COURSE IMPROVEMENTS.

Extensive work leading to the improvement of the golf courses has already begun and the aim will be to establish turf throughout the fair green as rapidly as possible, by seeding and watering during the summer months.

The "short" course will disappear before another fall and in its place will be found a long nine-hole course which will compare favorably with the best nine-hole courses in the South. The introduction of bunkers, pits and traps

KICKER'S HANDICAP CLOSE!

Single Stroke Wins Trophy in Saturday's Medal Play Event.

A. J. Haggerty, Bradford Country Club, Penn., Wins With Net Score of Eighty-Three.

GOLF claims many devotees among Pinehurst's Spring guests and Saturday's "Kicker's Handicap" furnished an interesting contest and close scores. A Sterling golf seal watch fob was offered for the best net score nearest the unknown bogey.

A. J. Haggerty of the Bradford Country Club, Pennsylvania, who played with a handicap of forty strokes, won the trophy with a net score of eighty-three.

Karl Abbott of Bethlehem, N. H., whose handicap was thirty; George Hayes of Canandaigua, N. Y., and P. R. Brooks of the Minikahda Country Club, Minnesota, who played with handicaps of forty and five, respectively, were but a single stroke out of the way.

THE SCORES.

Gr. Hdp Net

A J Haggerty, Bradford Country, Pa,	123	40	83
Karl Abbott, Bethlehem, N H,	114	30	84
J D Westcott, Union City, Pa,	125	40	85
W A Berg, Boston, Mass,	110	25	85

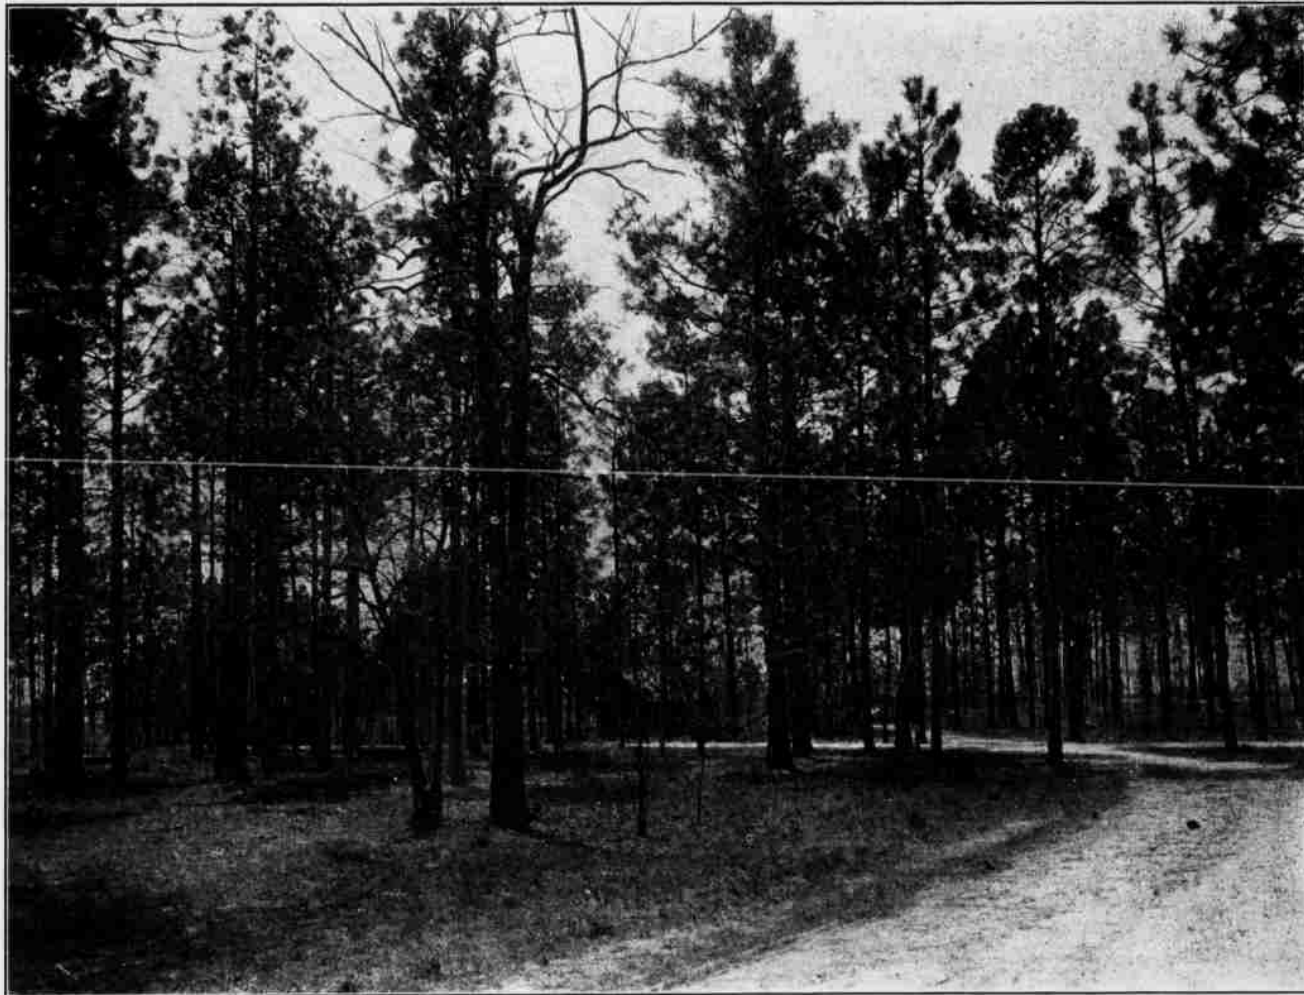

Miss Caroline C Check, East Orange, N J,	112	25	87
C M Pettis, New Haven,	114	25	89
A Kemper, Rensselaer, N Y,	136	45	91

BELOW BOGEY.

F W Matthews, Newton Centre, Mass,	109	30	79
George M Hayes, Canandaigua, N Y,	121	40	81
P R Brooks, Minikahda, Minn,	86	5	81

OTHER EVENTS.

Other events of a similar nature will be arranged as long as the interest warrants it.

SPRING DAYS AT PINEHURST--THE PINE GROVE; WHERE MERRY CHILDREN ROMP AND PLAY.

GENERAL REPAIR WORK.

General repair work throughout the Village, both in the hotels and cottages, will receive its share of attention.

As has been the rule in years past, this season's cottagers will be given the refusal of the cottages for next season. Detailed information will be sent out in August at which time positive decisions will be necessary.

The increasing demand for these accommodations and the popularity of the life, will ultimately, lead to a considerable increase in this department. Already the applications for apartments during the coming season have been far

and other hazards will make the course an exceptionally sporty one and this course in future will do much towards relieving pressure on the eighteen-hole course during the height of the season.

TOURNAMENT PROGRAMS.

Special attention will be given to the golf, tennis, trap shooting, target-pistol and other tournament programs and an unusually fine lot of sterling trophies will be offered.

THE PINEHURST PRESERVES.

New and valuable territory is conserved.
