#### MANY NEW FEATURES.

**Livery Stable Will be Better Equipped Than Ever Before.**

Manager W. P. Mundy, of the local Livery Stable, has made several new departures this season which make him better equipped than ever before. It is doubtful if riding and driving is more enjoyed or more generally indulged in than here, and the innovations are to keep pace with increasing patronage.

Among the new features are ponies for the use of children, and a woman riding instructor as well as the regular riding master. Superintendent Frank Welch has purchased fine saddle horses in Kentucky and Tennessee, and, if possible, the string is even better than last year.

Interest in riding is much in evidence, and one already hears plans for paper chases, gymkhanas, saddle picnics and other frolics.

#### ENDORSES PINEHURST.

**Dr. Biggar Believes Climate Has No Superior South or West.**

Dr. Hamilton F. Biggar, of Cleveland, is much in the public eye, at present, through prominence attained upon his recent European trip with Mr. John D. Rockefeller, who has been a frequent visitor here.

Dr. Biggar spent some weeks in the Village during Mr. Rockefeller's first visit, experiencing immediate relief from a catarrhal throat, and, through his interest, many prominent people have sojourned here.

Dr. Biggar's views regarding the climate are generally shared by physicians, and briefly summed up in the following statement which he was kind enough to furnish THE OUTLOOK.

"I regard the Winter climate at Pinehurst," he says, "as one of the purest, strongest and best suited for catarrhal and nervous diseases, of any of the places of the South or West. It is so dry that the lips need moistening, the appetite is improved and refreshing sleep follows as a natural consequence. The pines and the freeness from water add very much to its salubrity."
