

The only American made shells with steel lining.

Winners of every Interstate Handicap for two years straight. A record never equalled by any other ammunition. The winning amateurs in these 10 Interstate handicaps chose ARROW and NITRO CLUB shells. Their successes proved their judgments were right. You buy exactly the same loads that they used, at your dealers. Don't risk losing your game by using other than the record-making UMC ammunition.

The Steel lining in these shells protects the powder from moisture, insuring a uniform, snappy load in all kinds of weather.

Sooner or later you'll try these shells—and always shoot them. Why not try a box today?
