## LAST DAY'S SHOOTING

Many Sportsmen Round Out Season,  
Tuesday, With Excellent Success

Many sportsmen enjoyed the last day of the season's quail shooting, Tuesday; the high guns Irving S. Robeson of Rochester and Richard Shields of Pittsburg, who bagged nineteen quail and a woodcock.

N. S. Hurd and J. V. Hall of Pittsburg, had excellent sport, but sad to relate, walked right into a flock of wild turkeys which they took for tame ones until, alas, it was too late. Often the opposite has occurred, but never this!

Best of all, the hunters report quail as abundant as early in the season; plenty left over for another year.

## FIRST GYMKHANA TODAY

## Attractive Trophies For First Equestrian Contest of Season

Program Includes Ring Tilting, Potato Races, Cigarette Race, Jumping and Horsemanship Test

THE FIRST of the equestrian Gymkhanas is scheduled for this afternoon at 2:30, the program one of interest and the trophies which are on exhibition at The Carolina, most attractive. The events include ring tilting, horsemanship test and jumping for both men and women, potato races for men and women, and a cigarette race to be ridden in couples in accordance with the following conditions;

RING TILTING—Competitors are provided with a lance with which they are expected to gather in hanging rings while riding at a gallop.

POTATO RACE—Competitors to carry potatoes one at a time, on the point of a lance, across the ring.

HORSEMANSHIP TEST—The object of this test is to get a horse upon a strip of white canvas, stretched upon the ground, the prize to be given to the contestant who in the opinion of the judges, shows the best horsemanship in accomplishing the feat; the argument being that the steeds will object.

CIGARETTE RACE—To be ridden in couples, man going to the right, woman to the left, and circling to the starting point, where the woman will light and hold a match to a cigarette for her companion. When this is accomplished the couple will ride around the ring with right and left clasped hands to the starting point, the cigarette to be kept burning during the entire trip.

JUMPING—Two rounds at three jumps to be judged for horsemanship.

## Miss Dace Wins Trap Shooting

## WINCHESTER

**"LEADER"  
Loaded Shells**

You can't buy a safer, faster, harder, a more even shooting or a better keeping load than Winchester "Leader" shells. For field, fowl, or trap shooting, they are in a class by themselves, and give entire satisfaction in any make of shotgun. The results they give are due to their patented construction and the careful and exact manner in which they are loaded. The patent Corrugated Head used on Winchester shells is an invaluable feature. It absorbs the shock of the powder explosion and takes the strain from the paper tube instead of localizing it, as the old English method of metal lining does. That's why "Leader" shells are stronger and less apt to cut off at the mouth of the shells than shells made according to English ideas of long ago. If you want the most satisfactory shells made, ask for Winchester Factory Loaded "Leader" shells.
