GAY EVENINGS

Many Dinner Parties Given at the
Club House

There is universal rejoicing in the determination of the governors of the Country Club to add adequate and comfortable space to the quarters down stairs. In view of the pleasure and satisfaction there is in the evening parties now becoming so much the fashion at the club, it might be well to consider even more dining space. There was a party there every evening last week.

On Tuesday there was a party from the Drowning Creek Plantation including Mrs. Richard Derby, Miss Hope Hamilton, Arthur Woods, Richard Harte of New York, and Miss Priscilla Beall of Uniontown, Roger Derby, Mr. and Mrs. Frederick Pearson and Henry Holt, Jr.

On Wednesday the Tin Whistles over one hundred strong made merry at their annual dinner. On Thursday Mrs. J. C. Murray had covers for eight, and Friday evening the club was occupied by Mr. C. B. Hudson who entertained Mr. H. C. Fownes, C. L. Becker, M. B. Johnson, W. L. Milliken and others of the Tin Whistle faith. Saturday the council of the Sandhills held forth, as they are wont on occasion.

A. J. DeMott to Build

Work will be begun immediately on a house for Mr. A. J. DeMott, who recently purchased a lot on Shaw Road not far from the residence of Mr. H. W. Priest, and directly opposite Mr. James Barber's lots.

Mr. DeMott is the owner of the Empire Metal Co., of Syracuse, N. Y., and with his wife spent several weeks this Winter at the Pine Crest Inn. This was their first visit to Pinehurst, and they were so favorably impressed with the climate and the village that they decided to establish a permanent Winter residence here and next season will occupy their own home.

The house will be of the bungalow type with eight rooms, two baths and sun parlor, and will be built by Mr. John McCleary.

Send THE OUTLOOK to your friends. It tells the story of the week and saves letter writing.

Two-Thirds Soil---One-Third Alphano
Makes the Ideal
Fertility Producing Top Dressing

ALPHANO is rich in Humus and abundantly supplied with both the slowly liberated, as well as the quickly available, root foods. You receive immediate root growth stimulation. You are certain of an extended food supply. You continually build up the soil's humus, producing and preserving that much sought "cushiony" condition. You put into the soil a moisture holder that plays a vital part in keeping your greens green.

Alphano is dry, thoroughly screened, and finely granulated. Odorless, and free from weed seeds. Rich in nitrogen, phosphate, and potash. Lively with beneficial soil bacteria. Do not confuse it with the water logged, raw, unprepared humus, sold under various trade names.

Send for the Alphano Book. Get full facts and figures.
