

## Hercules Smokeless Shotgun Powders

Look for the Name of the Powder

Any sportsman who gives the matter a moment's thought will agree that the powder contained in the shotgun shells he uses is a factor of prime importance to him when shooting either in the field or at the traps.

This being so it is a matter of ordinary prudence when buying loaded shotgun shells to specify that they be loaded with a powder with which you are familiar—a powder upon which you can depend in all circumstances.

You get such a powder when you specify either Infallible or "E. C."—the two Hercules Smokeless Shotgun Powers.

Infallible and "E. C." can be obtained in all the following makes of shotgun shells:

Peters	Selby	Western
Remington	U.S.	Winchester.
