**In the Right Direction**

The sportsman who begins his day by buying shells loaded with Infallible or "E.C." has started on the highroad toward success in the field or at the traps.

Many veteran sportsmen shoot only Hercules Smokeless Shotgun Powders. These men are old hands at the game and know that if they expect success they must use powders that are *dependable*—that always give high velocity with light recoil and even patterns. *And they know that they can always depend upon Infallible or "E. C."*

You can profit by their experience by buying shells loaded with one of these powders. Any one of the fourteen standard brands of shells listed here can be bought loaded with a Hercules Smokeless Shotgun Powder. When you buy shells, look on the end of the box or on the top wad of the shell for the name Infallible or "E. C." Start *now* in the right direction by using Hercules Smokeless Shotgun Powders.
