 SURGEON DENTIST

Formerly of Southern Pines and Pinehurst, now located 140 West 34th Street, (Phone Fitz Roy 5436) New York City. All branches of Dentistry guaranteed. Pyorrhea, Alveolaris successfully treated.

TOP DRESSING PUTTING GREENS
 The old time compost pile made with manure, sand and soil is becoming obsolete and is being discarded by the majority of Golf Clubs in favor of Prepared Top Dressing which comes ready to apply. It takes two years before a compost pile is fit for use. It is costly, even when all the ingredients are at hand, and absolutely impracticable if they must be purchased. The labor of turning and screening is also expensive. The automobile has reduced the quantity and increased the price of manure. Manure is a carrier of disease germs and weed seeds. Shavings for bedding and strong disinfectants in stables, mean death to grass.

The Alphano Humus Company's corps of experts have made an intense study of this problem for many years. The result is, their Prepared Top Dressing for Putting Greens—a scientifically balanced grass food, inoculated with billions of Nitrogen gathering bacteria. It is delivered in the right condition for top dressing greens, just as unloaded from car. The finest Putting Greens in America today owe their perfection to Prepared Top Dressing periodically applied with no interference with the play.

To be always positive that the grass seeds best adapted to the locality and climatic conditions are sown in connection with Prepared Top Dressing, to insure results certain of satisfaction, The Alphano Humus Company has effected selling arrangements with the largest grass seed exporters and importers of the world and can furnish grass seeds of the proper variety, of guaranteed purity and highest germination tests.

If you will write The Alphano Humus Company, 17 Battery Place, New York City for Circular "K," it will give you full particulars regarding their Golf Course Service, without obligation.
