STEADY MAN
Sole and Heel
 of Sturdy
 Rubber

**—the cone shoe is
 the logical succes-
 sor of the spiked shoe**

The truncated cones on the sole are positioned precisely where the stance comes - - under the ball of the foot.

These cones prevent slipping. They grip the soil. They never tear the turf or green.

Lighter than ordinary "spiked" shoes, they're thoroughly comfortable. Sewn to leather, Steady Man Soles and Heels do not "draw" the feet.

Unnecessary to change shoes for luncheon or between games. They do not disfigure rugs or floor.

Fine, too, for the tennis court, or yachting.

Easily attached to your friendly old shoes, at W. N. Foye's or at your own repair shop. Ask your club "Pro" for them. Or, a line to us will ensure your getting them.

**NEW THEATRE BUILDING
 PROPOSED FOR PINEHURST**

As everyone who has spent a few weeks in the Sand Hills section knows, the growth of this community in the last few years has been one of the seven wonders of the age. It has been impossible for the towns to keep up with the increased demand for facilities of all kinds, and especially have they fallen behind in the entertainment feature. Pinehurst is, perhaps, the social center of this section, and yet anyone who has tried to get seats at the "movies" a few days ahead of any performance knows how inadequately the present house supplies the demand.

The pictures shown at Pinehurst are the very best that are produced, and, most of all, they are new. The local management gets them just as soon as they are released by the Film companies
