

Did you ever see such drives?

EVERYONE was talking about the tremendous distance Gene Sarazen was getting with the new "JH" ball at the Pelham Country Club, where he won, for the second consecutive year, the P. G. A. championship against the greatest professionals in America. Gene outdrove them all and he attributes this largely to the "JH" ball, which he says "has no equal for distance and for accuracy around the greens."

On every round that he played the 274 yard 18th hole he drove the green. He was the only man in the tournament able to drive the green on the 294 yard 9th hole and the only one to cut the corner over the houses and trees which make the 310 yard 2nd hole a dog-leg. All the others played around.

Only utmost confidence in the flight of his ball would induce a player of Sarazen's experience to take this chance in an important championship, but he knew what the "JH" would do.

Perhaps you cannot equal this record but you too can add yards to the length of your drive with the "JH." Just try one next time you play and prove it. Your pro carries the "JH."

The PINEHURST Golf Shoe

*The Improved
Pinehurst Model*

No. 6

PINEHURST No. 6 represents the latest step forward in the art of fine Golf Shoe making. It has the popular patented combination one-piece tip and ball strap — reinforcing the shoe, giving unusually firm grip and eliminating all possibility of "bite" at the joint.

*One of ten popular models
embodying 50 years
experience in making of fine
sport shoes exclusively.*
