# Re- creat- ion

**EVERY** day, feeling bright, cheerful, wonderfully fit. Ready for riding, driving, hiking, golfing or any of the enjoyable out-of-door sports. Days when Nature works in complete harmony. Days when playing golf, you are sure of your stroke; your drives send the ball straight down the Fairway, clear of the Roughs, over the Sand Pits, and on to the Green. Days when you are in excellent form; clear of vision, steady of nerve, mentally and physically fit—these are the days of real re-creation because your blood stream is not contaminated by the poisonous waste products caused by faulty digestion. And this is the reason why Eno's is praised by all who take it because it keeps the blood pure and helps Nature rebuild—recreate.

You can take Eno's any time. It is particularly good first thing in the morning, for then its use blesses the whole day with health and happiness brought by a body internally clean.
