**If this guy is sticking his nose into your cotton business... apply Guthion M-E**

What you see here is an overwintered weevil. His presence poses two serious problems to your cotton. First, he infests young cotton soon after plants emerge, and at squaring time, sinks his mouth part into the tender squares and destroys them. Second, and most important, he's responsible for the broods that take over your fields during mid and late season. By spraying now with Guthion M-E, you can eliminate overwintered weevils that cause immediate damage and also prevent serious infestation outbreaks later in the season. For best results, your early-season Guthion M-E spray program should be completed before squares are one-third grown. Consult your local authorities for timing recommendations.

## Corvair by Chevrolet

It's stylish, sporty and available with up to 180 frisky horsepower. See below what car experts say about its unique engineering and handling. Then see your dealer and see what a wonderful buy you can get right now!

**Hot Rod**  
"On tight corners... will hold its own with anything on the road."

**Sports Illustrated**  
"On test runs at GM's Michigan proving grounds the Corsas started and stopped with no dipping, and it cornered—even at wild speeds—with smooth intent and no sign of sway."

**Motor Trend**  
"Not counting the Corvette, Corvair has the closest thing to performance handling characteristics you'll find on this side of the ocean, with no sacrifice in ride qualities."

**Car Life**  
"We'd feed the Corvair into the turn with increasing force on the steering wheel, applying as much power as was available, and come scorching out the other end of the curve without so much as a tailwig."

**Sports Illustrated**  
"... a new American sports car that will be eminently acceptable at rallies but that can, in the American manner, double at church picnics."
