**NURSE FINDS A PERFECT REMEDY**

"From my long experience as a nurse I do not hesitate to say that I consider Tanlac Nature's most perfect remedy," recently declared Mrs. I. A. Borden, 425 Pontius Ave., Seattle, Wash. Mrs. Borden is a graduate of the National Temperance Hospital, Chicago, and her wide experience in caring for the sick lends particular emphasis to her statement.

"I have used Tanlac exclusively for seven years in the treatment of my charity patients," continued Mrs. Borden, "and my experience has been that, for keeping the stomach, liver, kidneys and bowels functioning properly and for toning up the system in general, Tanlac has no equal. Recently I had a woman patient who could not even keep water on her stomach for fifteen minutes. Six bottles of Tanlac fixed her up so she could eat absolutely anything. Another patient, a man, seemed unable to digest any food at all. Three bottles of Tanlac put him in such fine shape he went back to work. These two cases are typical. My confidence in Tanlac is unlimited."

Tanlac is sold by all good druggists. Take no substitute. Over 40 million bottles sold.—Advertisement.

Different.  
The comedy cinema actor stopped a man he knew. "Look here," he began, "I understand you said last night that I have no sense of humor. A remark of that kind, made publicly, in the presence of other people, is very damaging to a man in my position, and—" "Hold on," interrupted the other. "I never said you had no sense of humor. What I said was that you had no sense of honor."  
"Ah!" beamed the actor, "I thought there must be some mistake. I felt certain you would never run down a pal behind his back."

Edible Drinking Cup Appears.  
With the increase in popularity of water ices among patrons of refreshment pushcarts, ball park caterers and other vendors the edible drinking cup is appearing. It is of graham cracker ingredients and some are lined with chocolate.

Early in the season water ices were served in paper or paraffin cups. As these were not consumable they created a problem of litter. The new kind of cup, like the cone for ice cream, provides a cake for the water ice. It is also finding a field as a container and accompaniment for soft drinks.—New York Sun and Globe.

Trade Revival Vital to U. S.  
Far away, but eventually affects your pocketbook: Great Britain, in the first six months of 1923, exported more than three times as much coal as in the first six months of last year. Also, correspondingly, nearly four times as much iron and steel, eight times as much cotton goods and nearly six times as much woolsens.  
An English revival of trade is important to us because her ability to pay what she owes Uncle Sam depends largely on her export markets.
