**RED CROSS RELIEF AID DISTRESSED IN 120 DISASTERS**  
Help Given in Fires, Floods, Earthquake and Epidemics Part of Year's Task  
The American Red Cross has reached into the homes of six million families in the past year with unemployment and disaster relief. Chairman John Barrow Payne announced.  
"As the year closed the organization continued in readiness to serve in the forthcoming winter at the point of greatest need and to adjust its service to meet the calls of the emergency of unemployment and disaster," Chairman Payne stated.  
In a year of greatest economic distress in the nation's history, in which the Red Cross ably discharged a relief task in distributing flour and clothing to distressed families in all but six of the nation's 3,098 counties, the organization also was called into action in 120 disasters, of which 96 were within the borders of the United States.  
Earthquake, floods, hurricanes, fires and other cataclysms visited death and destruction upon the lives and homes of thousands of people. Red Cross statistics showed that in the 120 disasters almost a thousand lives were lost, 148,340 homes were destroyed or damaged, 13,275 persons were injured, and Red Cross relief was given to 452,879 individuals.  
In giving aid in these disasters, in its unemployment relief and in handling the distribution of government wheat and cotton, the Red Cross expended from its national treasury the sum of \$1,070,284.  
During one period of twelve weeks, 46 disasters occurred in 23 states. Red Cross disaster workers were hard pressed in meeting all of these needs occurring at once, but everywhere misery was promptly relieved.  
Support of the Red Cross work is through its annual roll call, conducted by chapters in the period from Armistice Day to Thanksgiving Day, November 11 to November 30. Every citizen who joins the Red Cross as a member aids in carrying relief to disaster victims and in other Red Cross services, such as preservation of life, child welfare through the Junior Red Cross, and direct service for the public health.

**RED CROSS CLOTHES THE NATION'S NEEDY**  
Flour, Bread, Clothing Reach Into More Than Five Million Homes of Jobless  
The greatest task ever undertaken by a relief agency in the history of private charity is drawing to a close with the final distribution of cotton clothing to more than five million families by the American Red Cross.  
At the direction of the Congress, beginning eighteen months ago, the Red Cross undertook to convert the wheat and cotton surpluses of the Farm Board into food and clothing for the unemployed and needy. In the consequent operation, this relief agency entered upon a commercial enterprise greater than any single commercial firm has ever undertaken in the same period of time.  
In the ensuing months the Red Cross converted 85,000,000 bushels of wheat into flour and bread and gave it to 5,803,000 families. The distribution was through 2,700 Red Cross chapters and hundreds of other charitable agencies. During the severe northwestern drought of 1931 the Red Cross also gave wheat in the form of food for livestock to 184,188 families.  
The clothing—dresses, underwear, overalls, jumpers, sweaters and stockings for men, women and children, and even blankets and comforters—was distributed to 5,465,410 families. More than 54,000,000 ready-made garments and 92,000,000 yards of cotton cloth were given to the needy. This clothing came from 844,000 bales of cotton.  
The wheat distribution was concluded in June, 1933, and final distribution of cotton clothing is occurring in the fall months.  
In handling these tasks voted to it by Congress, the Red Cross will expend from its own treasury \$735,000. At the same time the organization carried on its regular program of disaster relief; of service to the veterans of all our wars; of educational and welfare work through the Junior Red Cross; of health education and public health nursing and of life saving and first aid. Funds for this work come from the membership roll call the Red Cross chapters conduct from Armistice Day to Thanksgiving Day, when every one is invited to join the Red Cross and aid in this vital relief work.  
Seven hundred thousand women volunteers under the Red Cross banner sewed for the needy last year and many thousands still are making cotton garments for their Red Cross chapters.  
The Red Cross has 3,701 chapters and 10,000 branches of chapters. Thus it can be mobilized nationwide in a great relief task within 24 hours.

**Thousands have Ended their Bowel Worries by taking this advice!**

Can constipation actually be overcome? "Yes!" say medical men. "Yes!" say the many thousands who have followed their advice and know.  
You are not likely to cure your constipation with salts, pills, tablets, or any of the habit-forming cathartics. But you can correct this condition by gentle regulation with a suitable liquid laxative.  
Using force. An approved liquid laxative (one which is most widely used for both adults and children) is syrup pepsin. Dr. Caldwell's Syrup Pepsin is a prescription, and is perfectly safe. Its laxative action is based on senna—a natural laxative. The bowels will not become dependent on this form of help, as in the case of mineral drugs.  
Hospitals and doctors have always used liquid laxatives. The dose can be measured, and the action controlled. Pills and tablets containing drugs of violent action are hard on the bowels.  
If there are children in your household, don't give them any form of laxative, but use a healthy, helpful preparation like syrup pepsin. Its very taste will tell you it is wholesome, and agreeable to the stomach. Delightful taste, and delightful action; there is no discomfort at the time, or after. Ask your druggist for Dr. Caldwell's Syrup Pepsin, all ready to take.
