

As we gather peacefully about the festive board in hundreds of thousands of American homes, this Thanksgiving Day, to offer up our praise to the Author of all good gifts, we think of those across the seas, whose lands are held beneath the iron heel of intolerance and despotism, those who live in terror of the horrors that beset them by day, and the death that may rain down upon them in the night.

We think of the millions of men and women and little children who have sworn, by the Living G od that made them, that they shall continue to be free, as the ir fathers were, or that they shall die in the attempt to preserve L iberty and Christianity for the millions of mankind that are and that are to be.

We think of those who have gon e before us, of the Nation they builded here. We hold up the to rch of liberty and enshrine the faith they had in our hearts; and rejoice that there still stands the ancient sacrifice, "an humb le and a contrite heart, and we pray:

"God of the Nations Spare us y et, lest we forget, lest we forget."

WEBSTER P. T. A. HAS THANKSGIVING PROGRAM

A special Thanksgiving program was presented by students of Webster School at the regular meeting of the Webster Parent-Teachers Association, Thursday. The program, directed by Mrs. Melba Simpson, carried out the idea of the defense of America in connection with Thanksgiving. It was presented in the form of a pageant showing the American way of life, that all citizens should respect. The various phases of American life portrayed included religious freedom, the electoral franchise, recreational opportunities, and cultural aspects. Members of the folk dancing class showed various dances which the American people have always loved. It was pointed out that the Americans have all these things and more to defend, and that they are a thankful nation. The program was concluded by a prayer of Thanksgiving.

Mrs. Ernest Lewis presided at a short business session that followed the program.

When our ancestors fled from the oppressions and intolerances of the Old World, they brought, out of their experiences, a great wealth-a firm belief in the dignity of man, his right to live and love and worship God, without interference from any power. They blazed a trail of Freedom across the wilderness that is our America, and established here a nation upon the principles of Liberty, Democracy, Justice, and a firm faith in God. With a Bible in one hand and a rifle in another, they came here seeking a new way of life, determined to find it and defend it at all hazards.

We are thankful for them, for the faith they had, the noble work they did; and we, as their children, are heirs of this great inheritance, of the Bill of Rights, the Constitution, Magna Charta, the Declaration of Independence, the Common Law.

Upon these holy documents our Nation was erected. Upon them it stands today. Because of them we enjoy the multitude of good things that many peoples are today denied.

So, we are humbly thankful for America and the American way.

Under God, the Torch of Liberty still burns brightly in America, this Thanksgiving Day.

And we are profoundly thankful for this nation that still holds to the ancient faith in the goodness of God, the dignity of man, and the right of man to live his own life in his own way, always remembering his obligations to his fellow-man.

"Long may our land be bright with Freedom's holy light. Protect us by thy might, Great God, our King."
