

# AMERICAN!

## Has Gone Forth

from your state, from State College, from  
culture, from the Coordinating and Planning  
the farm folks of North Carolina

Save Our Way Of Life -- Plant -- Grow -- Produce  
Cattle, More Hogs, More Poultry, More Vegetables

CONSERVE - STORE FOR SECURITY

### America Needs You

## Forward for Farmers

We are here to help the farmers in their answer to the call by our State for greater production and more conservation of foods and feeds.

From the time the ground is prepared for field or garden, from the beginnings of a pasture, through to the harvesting and preservation of the foods and feeds, your hardware store is your right-hand man.

Field Seeds, Garden Seeds, Tractors, Trucks, Plows, Hoes, Machinery of every kind. The right fertilizers for the right soil — The equipment for poultry-raising, the feeds that you may need to help in stimulating growth. The cans and canning equipment that will be needed to store away the biggest crop of fruits and vegetables Jackson County ever produced, are all here.

We are with the Defense Effort. We'll back the farmers to the limit of our ability, in answering the call to aid the National Defense.

## Every Man And Woman

Has a part in the National Defense Effort. It is our country. It belongs to all of us, this country, and the magnificent things for which it stands.

In these days of stress, when the world is in turmoil, it is the high duty and sacred privilege that each of us has to do with our might what our hands find to do.

By co-operative effort, the food and feed supplies of the Democracies can be greatly increased. In the humble but holy tasks about the farms, by helping our neighbors to plant, to plow, by swapping work for work, by planning, working, Jackson County farmers and farm women, farm boys and girls, can make a great contribution to the defense of America.
