Read "Effect of Effort" on seventh page and see what one weeks advertising will do towards making business lively. A man that don't advertise his business so people may know what he does or what he has to sell is like one that "lighteth a candle and putteth it under a bushel."

"Bandana" handkerchiefs go free with every \$5.00 purchase at Royster & Martin, Hickory, N. C.

A Sister Town.

During a recent visit to Hickory we were struck with the handsome and durable buildings which have been built in that place during the last eighteen months and the new ones now going up. The new hotel, now building, will be when finished one of the most handsome in the South, both in outside appearance and in inside arrangement and finish. It has sixty bed rooms besides all the other necessary rooms, such as dining rooms, parlors, bath rooms &c. &c. and will be open to the public about July 1st.

We do not admire the location of Hickory, with the railroad cutting it in two, but we do admire the enterprise and public spirit shown by her citizens and wish we could import a half dozen of them that we could name.—Salisbury Watchman.

Notice.

There having been a real-estate and rental agency started by two energetic young men I announce to the public that I have transferred all business of that kind which has been bestowed upon me in the past to the new firm of Cline & Murrill. Thanking you for your past patronage and asking that you give to the boys what patronage I would have received in the future, I am,

Respectfully,
 J. E. Murrill.

A Good Woman gone Home.

Lied on Sunday, June 24th, Mrs. Maria Chase, aged 56 years. Although she had been living in Hickory but a few years, her amiability, intelligence and loveliness of character have made her many warm friends. She leaves four sons who have the deepest sympathy of our people. May He who tempers the wind to the shorn lambs remember them.

Jacob's Fork Items.

Mk. Error.—It has been some time since your correspondent has sent an article to your valuable paper. The news is rather on the slim order at present. The farmers are very busy in their corn and cotton crops. Wheat has been all housed up in the dry. I think perhaps wheat crops will reach 80 per cent. The whistles of the threshing engines are heard in the land preparing to commence threshing by next Monday.

The ground has become very dry on account of the many hard rains lately.

About A. G. Copening's settlement about a week ago there was a severe hail storm and some of the farmers have planted their cotton fields in corn and peas.

There has been a new post-office established at Henry Blackburn's on the Newton and Lincoln route with Julius Yoder Post Master.

Dr. J. M. McCorkle, of Newton, reports to the Health Bulletin for May. The general sanitary condition of the county is very good. No sickness of a serious nature has been reported and but a little of a slight form. The sanitary condition of the public buildings is good.

LOCAL NEWS.

Emperor William opened Reisetag Monday.

Full line spectacles, eye glasses, &c. at Royster's Drug Store.

Dozens of people are dying from the effects of the heat in New York.

Thirty-eight Michigan counties have voted under the local option law, and all but two of them have decided that prohibition shall prevail for the next three years.

Mr. Samuel L. Patterson seems to be the choice of a large majority of Democrats of Caldwell county, this year, for the Legislature. If we lived in Caldwell we would surely vote for Patterson.

Nearly every day in New York city a man is killed by contact with electric wires, but the crooked officials of that city somehow or other know just where the wires are, and always keep out of the way.

The Secretary of the State Democratic Executive committee at Raleigh requests us to say that it is desired by the Committee that the names and post-offices of the county and township committeemen be sent them as early as possible.

Mr. C. Cutbertson late of Charlotte has become business manager of the Salisbury Press and begins his duties with this week's issue. He is an energetic young man and a practical printer of some experience, and will doubtless earn success.—Salisbury Watchman.

The State of South Carolina through its Department of Agriculture has subscribed \$1,000 to constitute a member of the Southern Immigration Association, under the action of the convention held at Hot Springs last month. L. R. Ransom, secretary of the convention and of the board, was elected State director.

A lad in Greensboro, last summer, opened an account in the savings bank, which in nickels and dimes amounted in three months to seven dollars. He said that he put the stray pieces in, and then when he wanted a watermelon or some candy, he was ashamed to take money out of the bank for such nonsense. The result was a suit of clothes, while many of his companions had only rags for winter wear. Now is a good time to begin.

The recent \$9,000 cash sale of two-thirds of four shares in the King's Mountain Tin Mine to Prof. LeDuc, of New York and Prof. Furman, of Texas, mineral experts and agents for a Northern company, has given a solid business foundation for the tin excitement. About twenty laborers are now excavating in tunnels and on the surface for tin deposits under the supervision of Prof. Furman, a scientific gentleman and metallurgist of wide reputation in the United States.

The nomination of Hon. John S. Henderson, of Salisbury, was expected by all. He deserved it. Few districts are so admirably represented in the House as his. He is conscientious, learned, able and successful. We say he is successful because he has by unremitting and well aimed blows secured the confidence of the body as to his integrity and its respect for his ability. Now he can and does get a hearing. His record has pleased the people. The views he cherishes are the views of his constituents.—Charlotte Chronicle.

You can find an illustration anywhere. There are plenty within reach. Take Andrew Carnegie—his name happens to occur to us—as an example. Your tariff has made him many times a millionaire. Do his workmen share in his phenomenal prosperity? Ask them and see what answer you will get. During the last ten years he has made a million a year. Your tariff has enabled him to do it. But his wage earners are no better off. They are not protected. When they want an extra ten cents per day they must strike for it. More than that, when the owner of the works wants to cut down their wages they have to strike to prevent it, and then, after weeks of enforced idleness, are compelled to succumb. Your protection is a sham. It piles up the rich mans plenty, but leaves the fellow in shirt sleeves just where he was, to shift for himself.—N. Y. Herald, Ind.

The celebrated "W. L. DOUGLAS \$3 SHOE," also a full line of his other advertised goods may be found at LINK MCCOMB & Co's, Agents, Hickory.

We are not in the habit of noticing personal attacks on public men, because we think the people take little interest in them. Our theory is that the papers give them about the only importance they get, and therefore we make it a business not to notice them.

No man who knows Judge Shepherd would for a moment believe that he would be guilty of any professional impropriety, much less knowingly violate the law to serve a client or anyone else. He is a gentleman above reproach, of refined manners and cultivated tastes, and a jurist who is an honor to his profession. The only objection we know of that can be urged against him by a republican voter is that he is on the Democratic ticket.—Greensboro North State.

Bob Ingersoll's reply to Gladstone has caused nearly 100,000 copies of the North American Review for June to be sold. What a ludicrous sale! Bob is a destructive, pure and simple. He tries to destroy the only hope of a ruined race while shoveling the shekels into his own coffers. If there was no pay how Bob's ardor would cool. Here are \$250,000 spent to read an eloquent assault upon God and Christianity. What madness and folly!—Wilmington Star.

Mr. Blaine spent Monday night at "The Angel" inn in Grantham, occupying the same bed which Richard III slept in. Thus we do see the hand of fate: Blaine sleeps where slept the white rose of York; he rises to meet the red rose of Cleveland, and history repeats itself.

The white rose of York is crushed on the plain, and the red rose of Lancaster blossoms again.
