**Horoscopes**  
 by Linda C. Black

**Today's Birthday (Feb. 15)**  
 You're incredibly powerful this year. Be careful. You may not know your own strength. You're pushing pretty hard on a partner in February, but it's for his or her own good. The support you've been seeking is available in March, and by April you'll know how to use it. Be frivolous in June, but by August, be ready for the commitment. In November, you can cut through the fluff to find the important stuff, but don't get too set in your ways. Changes are coming again in December.  
**To get the advantage, check the day's rating: 10 is the bestest day, 0 the most challenging.**  
**Aries (March 21-April 19)**  
 - Today is a 7 - Don't be caught in the trap of rational thinking this week. If you stick with what's logical and realistic, it won't be nearly as much fun as if you take a bounding leap of faith. And this week, you should be able to do that, and land on the other side unscathed.  
**Taurus (April 20-May 20)**  
 - Today is a 5 - Your assignment for today is to lay low and take notes. A person who thinks he or she knows everything wants to tell you what to do, and you'd be a fool to argue, especially right now. This person has all the aces, and may actually know what he or she is talking about, too.  
**Gemini (May 21-June 21)**  
 - Today is a 7 - You could cinch a deal today that would open up all kinds of new horizons. Communication is your specialty, of course, and right now you could learn how to communicate on a whole new level. This might help you advance your career, or find a career you love. You've got the idea, now get the education.  
**Cancer (June 22-July 22)**  
 - Today is a 5 - There's no scarcity of money out there, you know. A lot of people have it, and they're looking for ways to invest it. All you have to do is link up with one of them, but it might take sending requests to several different places before that happens. Be willing to do the work, and the profits could be yours.  
**Leo (July 23-Aug. 22)**  
 - Today is a 6 - You may feel kind of tired today. Your best plan of action is to hand the assignment over to somebody else. You should have a partner who's able to do it better than you could anyway. If you're up against a challenge, or even more than a challenge, why not ask somebody else to just handle that part for you?  
**Virgo (Aug. 23-Sept. 22)**  
 - Today is a 5 - You may feel that there's almost more work than you can handle today. You like to perform at a high level. You want everything to be just right. Today, that could be difficult, but it's not impossible. Get feedback from the people you're trying to serve, so you can put the right habits into place.  
**Libra (Sept. 23-Oct. 23)**  
 - Today is a 7 - The intensity of a conversation with a loved one today could startle you. This person wants to be certain about everything. You like your freedom, but today you're being pushed to put more structure into your life, especially in regard to your relationship. Just make the commitment. Who knows? It could make your life easier.  
**Scorpio (Oct. 24-Nov. 22)**  
 - Today is a 6 - Looks like you'd rather stay home today than do just about anything else, and if you can manage to pull that off, you should. Romance is the part of the reason, but you're also putting down roots. If you're not able to spend the whole day at home, then spend as much time as you can there.  
**Sagittarius (Nov. 23-Dec. 22)**  
 - Today is a 7 - What you're learning now could propel you into all sorts of new adventures, and you're definitely in the mood to study. That's perfect. Soak it up. The more you acquire in the way of new skills, the more valuable you become, to yourself and to other people as well.  
**Capricorn (Dec. 23-Jan. 19)**  
 - Today is a 8 - Don't hide your money under the mattress. You'll actually wind up with less if you do that. Not only will the mice eat it, but you'll also lose whatever interest you would have gained by putting it in a bank account. Looks like a person who's slightly older and wiser than you has good advice, so take advantage of it.  
**Aquarius (Jan. 20-Feb. 18)**  
 - Today is an 8 - The new moon in your sign gives you awesome powers. Focus on those helping others. Someone you know well could use your counseling now, so look around. Don't waste time being introspective. Share skills that come easily with one who finds them difficult. You're weathering than you realize, so be generous with your time and talents.  
**Pisces (Feb. 19-March 20)**  
 - Today is a 6 - You may have a sense of foreboding today, as if you have to do something and you don't want to. There's no easy way to get out from that bureaucratic tangle, is there? Well, you may have a hard time with words, but your smile can move mountains. Today, use it where it'll do the most good.
