Greensboro' F. College-Meeting of Trustees.

Below is a call by the President of the Board, for a meeting of the Trustees of Greensboro' Female College, during the session of Conference.

It was received too late for publication last week; and as the notice is short, and a full meeting very desirable, we ask the special attention of the parties concerned, to the following:

Thanksgiving Day.

Gov. Bragg has appointed Thursday, the 20th November, "as a day of solemn and public thanksgiving to Almighty God for past blessings, and of supplication for his continued kindness and eare over us as a State and as a nation." It is to be hoped that the day will be thus religiously observed throughout North Carolina, by the convocation of the churches and the people at their respective places of worship, and by suitable sermens and religious services. The travelling preachers will not have returned from Conference, but others should be procured to occupy the pulpits, wherever it is practicable.

College Revival.

In a postscript to a letter received last Friday, we rejoice to learn that several pupils in Warrenton Female College had recently made a profession of religion. Every school and college recognized by the Church, if properly conducted, will be blessed with revivals. Piety and education should go together, and will, unless the union be raptured by neglect of duty.

The New Book on Romanism.

The new book on Romanism, by Rev. C. P. Jones, has received a favorable notice in the Richmond and Southern Advocates. We opine that notices most grateful to the author, might now come in the shape of orders and eash for the purchase of the volume. Let the work be circulated.

Cooke's New Map of N. Carolina.

Attention is invited to the advertisement of Rev. S. Pearce, in another column. The new map will be issued soon, and will be more large, and full, and accurate than any map of the State ever before published. Bro. Pearce retains an interest in the map, to the extent of an exclusive right to sell it in certain counties .-We beg leave to bespeak for him a prompt and liberal patronage by his friends and the public generally. The map should be speedily hung up in the dwelling of every
