The Weather Today.

Local forecast for Raleigh till 8 p. m. tomorrow: Fair; cooler Saturday evening and Sunday.

Local data for 24 hours ending 8 a. m. today:

Maximum temperature, 94; minimum temperature, 75; rainfall 0.00.

CITY IN BRIEF.

The survey of the railroad from Wadesboro to Winston has begun.

Pegleg Williams has again embarked in the excursion business.

Don't play too much with dogs, as it might turn out they are mad.

Last night is put down as the hottest of the season, thus far.

Cooler weather is expected to reach us by tomorrow night. It will be a great relief.

It is now understood that work will commence next week on the new cotton mill.

The Register of Deeds is having a dull time just now in the matter of marriage licenses.

It will soon be time to talk about a street car line to Caraleigh mills. That neighborhood is fast becoming populous.

Don't forget the Masonic services at the Church of the Good Shepherd next Sunday. They will be interesting.

Gov. Holt will spend considerable time at Buffalo Springs, after which he will go to the session of the Teachers' Assembly at Morehead.

It is one of the rumors of the day that the street car line is soon to be extended to the Federal cemetery, and that a grove has been leased looking to a park for the colored people.

Attention is called to the advertisement of the Maryland Insurance Company, of which W. H. Blockford, is President, H. L. Crow Secretary and R. T. Gray Attorney. The company stands deservedly high in all respects.

The timber for the desk to be made for the world's fair, of wood cut from Fort Raleigh, on Roanoke Island, where the first white child in America—Virginia Dare—was born, will be sawed in Washington, N. C.

We are pleased to learn, that Mr. Seymour Whiting who received injuries some time since by a fall, caused from a dog running at him, is much improved, and will soon be at his business again.

Messrs. Whiting Bros. make a seasonable announcement of hats which they are selling at prices that must suit the times. These gentlemen make a speciality of hats and there is no place in the city where a better selection can be made.

The ladies world's fair auxiliary of Henderson, last week, gave an entertainment from which nearly \$300 was realized. If all the other towns in the State would follow suit in the matter, we would soon have a fund which would be a credit to the State.

Notice has been given to Gov. Holt from the Secretary of War that Capt. Thaddens W. Jones, Tenth cavalry, and Lieut. R. P. Davis, of the Second artillery, have been detailed for duty as instructors of the State at camp, at Wrightsville, July 21st to August 12th, and that a detail of enlisted men from Fortress Monroe would instruct in the use of large guns at the coast battery.

A man giving his name as P. C. Phelps and hailing from Kentucky, has been in the city for several days peddling pictures with inducements offered that prizes would be given. His methods were reported to the authorities and steps taken to bring him to account. He found out however in the meantime that matters were getting rather hot for him, and he concluded yesterday afternoon to skip, leaving his wife behind. As there was no chance to get anything out of him, it may be as well that he has left.

The Thermometer at Bobbitt's Drug Store at 8 p. m. today, registered 93.

Messrs. Jos. G. and J. W. Brown are visiting Morehead City.

The street cars were crowded last night until a late hour.

Collector White has been quite indisposed ever since his return from Minneapolis.

The health of Raleigh is said to be better now than for any time during the past several years.

Both Brookside and Pullen Parks were booming last night. There were crowds enjoying the cool suburban breeze.

Every passing passenger train contains large crowds for Morehead and other points on the seashore.

Prof. Frank Beard, the cartoonist is delighting large audience at the Teachers' Assembly in Morehead City.

Marian Butler, President of the Farmers' Alliance was in the city yesterday afternoon.

It has been modestly suggested to us that a Skating Rink would add to the attractions at Brookside Park. We throw it out for consideration.

Joseph Ruby, of Columbia, Pa., suffered from birth with scrofula humor, till he was perfectly cured by Hood's Sarsaparilla.

The Pythian Band received the highest compliments for the music last night. They certainly show great proficiency.

Mr. J. S. Carr of Durham, delivered an address last night at Morehead City on "what Business Men Expect of the Public Schools."

The Entertainment given at Pullen Park last night was a decided success, and was much enjoyed by all who were fortunate enough to be present.

Gen. W. R. Cox will deliver an address today before a called meeting of the Grand Lodge of Masons at the Oxford Orphan Asylum it being St. John's Day.

The Outlook.

There is every reason to believe that the North Carolina exhibit at the Chicago exposition will at least compare favorably with that of many of the States in the union. This is very gratifying especially in view of the rather unfortunate condition in which our state was placed from the peculiar restriction imposed by the legislature on the appropriation made. It is a source of congratulation that the committee is making such rapid headway, and we must think there will be no let up in efforts. We note an important fact in the proposal of the committee to have the North Carolina annual fruit fair next year held at Chicago. This is a step in the right direction and must add greatly to the interest of the North Carolina department.

Pleasant Trip.

The Raleigh & Gaston R. R. Relief Association announces the greatest event of the season, it being the fifth and grand annual excursion and picnic to Littleton which will take place on July 7th, 1892. There will be a grand basket picnic at Shaw's all healing springs, affording an abundant supply of pure mineral water of seven different species. Another inducement is the celebrated Panacea springs, only a short distance from the picnic grounds. Everything has been done to render it the most pleasant trip ever offered to Raleigh excursionists. There is a large pavilion at the springs, so that all may have a good time. A base ball game will be one of the special features. Citizens and families can spend a pleasant day on this occasion and, at the same time, aid the association whose aim is to relieve their sick members. Fare for the round trip from Raleigh, adults, \$1; children between 6 and 15 years, 70c.

The National Democratic convention yesterday afternoon nominated Adlai E. Stevenson, of Illinois, for Vice President, on the first ballot.

Love in the Mists.

Love in the Mists. A thrilling story, the scene of which is laid in the mountains of Western North Carolina among the moonshiners. Written by a Raleigh boy. On sale at Alfred Williams & Co's. Price 25 cents.

We extend to manager Egerton and his gentlemanly operators, of the Western Union Telegraph Company; Messrs. Richardson, Burch and Jones, our sincere thanks for their kindness in furnishing the VISITOR bulletins of the National Democratic Convention. We are also under great obligations to the polite and energetic Messengers for the prompt delivery of telegrams. The "boys" all know their business, and they attend to it well.

Funny.

A Durham paper says: A young man retired last Wednesday night at his usual hour and was seen resting lazy in the arms of Morpheus. An imaginary horse got into his room and commenced to kick at a rapid rate, and the horse being near the head-board of the bed the only way of escape was over the foot board. So a rush was made in that direction and over went the frightened young man. Today he carries a sprained arm in a sling, and is unable to be seen upon the streets.

STRAW MATTINGS

We have never been able to offer our patrons so many novel designs in Straw Mattings as we do this season.

There was a time when one could scarcely get any style in these mattings besides a small check or plain white. Now they can be seen in many "carpet effects" closely resembling the patterns as shown in Brussels carpets.

Probably the most unique patterns are those in the Jap Mattings, being double dyed and in detached figures.

Another new texture in the Jap Matting is that "woven upon the thread," the warp being hemp and the filling of very fine grass. This produces the most even surface of any straw floor covering.

While we have the more expensive grades, yet we sell a reliable matting at \$5 per roll of 40 yards
