The Headlight with apparent gusto reproduces a "private letter" written by Mr. A. J. Connor, editor of the Roanoke-Chowan Times in which Mr. Connor "congratulates" the Headlight upon its political editorial. We know Mr. Connor well. We know he would not be guilty of the impropriety of "butting in" to Warrenton county matters in respect to its purely local affairs. We believe in criticism for the public good; we believe that the Newspaper does a great good to the State when it makes criticism for the good of the State and for the good of organized society; but criticism of a public servant in matters that are not essential to the welfare, the happiness or the peace of our citizens is a serious matter, and should not be entered into lightly or unadvisedly, for such criticism always reacts.

We are confident that Mr. Connor, editor of the Roanoke-Chowan Times, had in mind only this broad view of an editor's duty, and not that of "taking a hand" in Warrenton county matters.

In respect to Mr. Daniel's service to this County, we believe he has earnestly and faithfully tried to carry out the wishes of the citizens of the county; we believe he has come as near pleasing all of the people as any man could do. He has not known faction or clique; but has legislated in the interest of the Democratic party, and a majority of its membership. We think no criticism has emanated from any of the county officers, nor from any citizen representing a following worthy of note; but rather from some individual who wanted some special or spite legislation—"just fix it so John Doe can't be re-elected, and I don't care what else you do."

In Warrenton county our citizens are at work on the material prosperity of the County. They are making good crops, getting good prices, and gone to work to build up their homes, their schools, their highways. If there is any serious objection to our laws (since the reduction of the tax on dogs) we have not heard of it. The people have elected their County officers and they are discharging their sworn duties. A Farm Loan Association has been formed for the benefit of the County; the Farm Demonstration Agent is at work in the interest of the farmer; Pig clubs are being formed; bonds have been voted in several townships, and the money is being wisely expended; the school houses are full to overflowing with children, and prosperity is abroad in the land.

With these conditions confronting us, and with the experience of the County for the past four or five years of divided democracy it is the duty of a newspaper to help, to hold up the hands of its public officials in the sworn discharge of their duties, rather than criticize such official because he may not measure up to all of his opportunities.

We believe that our County officials are conscientious and competent; we believe that our Representative is likewise conscientious and competent, and hence the Warren Record has taken issue with the Headlight in its criticism, and believes that such criticism is not for the public good.

We are presenting this week an article by Mr. William A. Connell advocating a Farm Life school in conjunction with our proposed High school. This arrangement can be harmoniously and advantageously carried to completion. The law under which we advocate this school is known as the Guilford County

Farm Life School law, and is within the reach of all of our citizens. The first requirement is a High school, and in such high school shall be maintained "a department of agricultural instruction, and a department of training in domestic science and home economics in order to better prepare the boys and girls of said C-o-u-n-t-y for farm life and for home making."

The requirements for State aid are: "A building with recitation rooms, laboratories, and apparatus necessary for efficient instruction in the prescribed subjects of study, and such dormitory buildings as the County Board of Education may require, and a farm of not less than ten acres of good arable land, said land to be situated not more than one mile from the school buildings."

"The course of study shall meet the approval of the State Supt. of Public Instruction and an advisory Board of Farm Life Schools to be appointed by him."

One of the strong points in this farm life department is that the teacher of agriculture and the teacher of domestic science shall work in harmony with the County Demonstrator as the agent of the State Department of Agriculture and the United States Department of Agriculture. They are to hold township and district meetings in the county from time to time for farmers and farmers' wives and to stimulate and aid in directing and supervising practical farm life work in the High schools and elementary schools of the County, and in providing instruction through the teachers' association. In a few words: to teach the teachers and to aid the Farm Demonstrator.

Another "drawing card" of such a school is that pupils OUT of the County may be admitted by paying tuition; but no boy or girl in Warrenton county shall pay ONE penny for instruction in domestic science, agriculture, or for High School instruction.

If Warrenton Special Tax District will provide the equipment the State and the County will provide maintenance fund—\$5,000.00. Here's your opportunity—the "Tide in the affairs of men."

A school of two hundred students located in Warrenton will benefit every business interest here. The only question is one of capacity in building and equipment, and efficiency in Faculty. We can have these. The High School material for leadership is right among us; a teacher of agriculture and a teacher of domestic Science is to be added; the present school is to be under the management of the High School principal, who with the teacher of Agriculture and the teacher of Domestic Science is to be the faculty, who combined with our present number of teachers will give us a school that will "lead all the rest" in equipment and

attendance. A school ideally located, and a school which will educate this community, and this county in all the essentials.

Say it takes twenty cents to combine High School and Farm-life school, and get all the necessary equipment: the State and the County each contribute \$2,500 annually to this school for maintenance, besides the salaries the district now pays its teachers—all of it spent in our midst, and the pocket money of the pupils, and of their parents when they come to town.

Can there be a question of the wisdom of establishing such a school in THIS town. Isn't it the best possible "factory?" Isn't it the best possible investment? This paper believes so, and earnestly advocates this school.

### CIVIC LEAGUE

The Civic League under the presidency of Miss Amma Graham is planning its work. Committees have been formed, and a general observance of "Clean-up week" is to be asked in the near future. Much good can be accomplished by this organization.

### APPLICATION FOR PARDON OF CHARLIE HICKS

Application will be made to the Governor of North Carolina for the pardon of Charlie Hicks convicted at the January 1912 Term of the Superior Court of Warren county for the crime of Burglary in the second degree and sentenced to a term of ten years in the State's Prison at hard labor.

All persons who oppose the granting of said pardon are invited to forward their protests to the Governor without delay.

This the 24th day of February, 1917.

### Whenever You Need a General Tonic Take Grove's

The Old Standard Grove's Tasteless chill Tonic is equally valuable as a General Tonic because it contains the wellknown tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

Piles Cured in 6 to 14 Days. Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Bleeding or Protruding Piles in 6 to 14 days. The first application gives Ease and Rest. 50c.

## EVER SALIVATED BY CALOMEL? HORRIBLE!

Calomel is quicksilver and acts like dynamite on your liver.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for 50 cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.
