New 6-Cylinder Valve-in-Head Engine

When you lift the hood and see the new six-cylinder valve-in-head engine you will realize that a new era has dawned for the buyers of low-priced automobiles. Representing four years' development and testing by Chevrolet and General Motors engineers, embodying the discoveries of General Motors Research Staff, this new power plant is a marvel of advanced design. At every speed it operates with that delightful smoothness which everyone demands today in a modern automobile. It develops approximately 32% more power than any previous Chevrolet engine. It displays sensationally greater speed and faster acceleration. And yet, despite this brilliantly improved performance, it maintains Chevrolet's worldwide reputation for economical transportation by delivering better than an average of twenty miles to the gallon of gasoline!

Great Array of New Features

Matching this spectacular advance in performance is the greatest array of new features Chevrolet has ever announced—and the most outstanding appearance ever achieved in any car of comparable price!

The new four-wheel brakes not only assure positive safety, but are exceedingly quiet in operation. The new heavier, finer quality transmission and rear axle gears contribute to longer life and greater stamina. The new two-beam headlamps with foot control dimming device were never before available in Chevrolet's price class. The new AC gasoline pump with filter assures constant fuel supply no matter how steep the hill. And so on throughout the entire chassis, you will find feature after feature previously demanded in the finest of automobiles and now offered on the Outstanding Chevrolet in keeping with Chevrolet's policy of constant progress!

Distinctive New Beauty

But, however impressed you may be by the mechanical superiority of the Outstanding Chevrolet, your admiration will reach even greater heights when you study the car's distinctive beauty.

Here the whole effect is one of ultra-smartness, luxury and style. Introducing modish, concave front pillars and divided moulding, embodying the comfort advantages of greater width and length, finished in smart new lustrous colors—the marvelous new Fisher bodies represent a masterful example of artistic coachwork. Never in Fisher's long and illustrious service to the automotive industry has Fisher style supremacy been more clearly revealed!
