2. Placing all the mechanism on top of the cabinet achieves Mrs. Charles Finch, Miss Josie maximum food storage space

within the cabinet. 3. With the mechanism on top, the inside of the cabinet is free from obstructions and easier

to keep clean.

from the cabinet.

THERE are many reasons

I why all the mechanism of

the General Electric Refriger-

ator is placed on top of the cab-

inet. Here are 3 vital reasons:

1. Refrigerating - mechanisms

develop heat in the process of

cooling the interior of the re-

frigerator. This heat escapes

and rises. Therefore, General

Electric has placed the refriger-

ating mechanism on top so that

the escaping heat travels away

There are now more than 300,000 users and not one has ever spent a dollar for repairs. Visit our display rooms and see the new all-steel models.
