#### FEE SYSTEM AND JUSTICE

Far better that ten guilty persons should go free, than that one innocent person should be punished, is an axom of the law.

We presume that most persons caught at a whiskey still are guilty of breaking the prohibition laws and as offenders should be punished as prescribed by the law. If this is not just and according to popular will, then the law should be changed.

At the same time it is conceivable that an innocent person may be caught by officers at a still. That is a matter to be settled without bias by our courts if the to be brought into disrespect. We hold that any fee system in the prosecution of such person tends to defeat impartial justice and for this reason we oppose it as matter of principle.
