THE HAPPIEST HEART
Who drives the horse of the sun
Should lead it by a rein?
Ay, none shall make it done,
Before the lovely deed were done,
And kept the humble way.

The rest will find the sword of
The fame.
The dust will hold the crown;
The dust shall not be hush his name,
That will not tear it down.

The happiest heart that ever beat
Was in some quiet breast
That found the common daylight
That found the common daylight
And left to heaven the rest.
—John Vance Cheney.

Mr. and Mrs. Evans Coleman and
Miss Marion Coleman of Wise were
visitors here Sunday.

Mr. and Mrs. C. A. Tucker and
daughter, Ma yarden, and Mrs. C.
Jackson spent Tuesday in Ra-
leigh.

miscellaneous prizes will also be
awarded. Anyone wishing to com-
pete for any of these prizes, please
get in touch with G. W. Shaw at
Macon who is in charge of the con-
vention.

**Bladen Grower
Makes Good Record**
High yields of good quality to-
bacco—the result of careful and
intensive cultivation—have brought
G. E. Callihan, of Bladen County,
an average of \$316.08 an acre for
his leaf during the past eight years.
The average included low figures
resulting from depression prices
and from hail storms damaging
the crop one year. In 1923, with to-
bacco bringing top prices, his yield
of 1680 pounds to the acre paid for
\$528.33. His lowest return was in
1931 when low prices and an un-
favorable season held the receipts
down to \$157 an acre.

In 1933 a per acre yield of 1,244
pounds sold for \$217.70. Most of the
crop was sold before the holiday on
the border markets. The govern-
ment equalization payments will
bring the total per acre receipts to
\$261.24.

Although Callihan farms dark-
colored soil that has to be drained,
he keeps it in a high state of fer-
tility by rotating crops and by ap-
plying small quantities of manure
and 8-3-5 fertilizer mixed accord-

ing to the State College formula.
His rotation consists of cotton fol-
lowed by rye the first year and to-
bacco followed by cowpeas the
second. The rye and cowpeas are
turned under.

Callihan sows large plant beds so
that he will have an abundance of
strong, healthy plants. He uses the
Cash variety. To keep the leaf from
growing too coarse and heavy, he
crowds the plants 18 inches apart in
four foot rows. He allows the stalks
to attain six feet in height before
topping them, thus preventing any
leaf from absorbing too much nour-
ishment. The result is a high yield
of excellent quality.

Callihan attributes his success
fundamentally to the fact that he
does not make tobacco his one and
only crop. His farm has only 32
acres under cultivation, and a large
part of that is devoted to other
crops. Usually he plants two acres
himself and allows a tenant to plant
three acres. He has found that it
pays better to cultivate properly a
few acres than to see how much
he can grow on larger tracts.

As the tobacco and cotton reduc-
tion campaigns get further under
way in North Carolina, it becomes
evident that those who do not co-
operate will have a hard time dis-
posing of such crops as they do
produce this fall.

Cooperative sales of chickens and
turkeys by Chatham County far-
mers have brought them about \$8,-
000 in cash during the past month.

Macon county dairymen feeding
silage from trench silos for the
first time report that the material
is keeping perfectly and has in-
creased the milk flow.

CARD OF THANKS
We take this pleasure to express
to our many friends and neighbors
and also Dr. W. D. Rodgers; our
most sincere thanks for the deeds
of kindness and faithful service
rendered us during my accident.
