How This Bank SAFEGUARDS Your Deposits Since January first this bank has been a member of the Federal Deposit Insurance Corporation. This means that we have been—and are now—actively participating in the temporary plan for the guaranty of bank deposits as authorized by Congress in the Banking Act of 1933. It means specifically that any and all deposits in this bank up to \$2500 are guaranteed in full against loss. We support and support heartily this plan as a part of the Emergency Program for National Recovery. It has already restored public confidence in banking institutions. But as a permanent restorative of that public confidence nothing can ever take the place of Sound Banking Management directed to the benefit of Depositor, Customer and the Stockholder alike. Sound Management enabled this bank to weather the severe four year national crisis. And it is because of Sound Management that this bank will continue to safeguard its Depositors in 1934.
