SPEEDY SERVICE

Our delivery service has been speeded up to the point where it is just about 99.9 per cent perfect. In other words, we have reached the point of efficiency where our patrons can call us for an order and in just a minute or so after they put down the telephone receiver the boy is standing at the door with the package or drinks.

At any time, day or night, we welcome the opportunity to render this service. And allied with this speedy service are delicious drinks, good drugs and fair prices. GIVE US A RING.

Mr. and Mrs. Henry White spent Tuesday in Oxford.

COUNTY BOARD

(Continued from page 1) to improve the road leading from the hard surface west of Norlina by was of One to the Virginia State line. The board ordered that the State Highway Commission be requested to improve the River road from Northampton county line to Virginia State line near Ebony, Va., in Roanoke township.

Seven reasons for constructing the State highway along Mosby Avenue were set forth in the petition of the Littleton citizens, as follows:

- 1. The width of Mosby Avenue is approximately seventy (70) feet from curb to curb, and is a straight line for its entire length. Furgerson Street is approximately twenty (20) feet in width, and is both hilly and crooked.
2. Mosby Avenue has a ratio of practically four to one in the value of property adjacent thereto as compared to Furgerson Street.
3. The High School building faces said Avenue and thereon are all the churches of said town except two

which are within half a block, or less, and plainly seen from said Avenue. None are in view of Furgerson Street.

4. Mosby Avenue is the principal and most beautiful residential street of said town with 44 white families thereon against ten white families on Furgerson Street; two colored families on Mosby Avenue against 18 colored families of Furgerson Street.

The width of Mosby Avenue at its intersection with Route No. 48 as to visibility is approximately 100 feet against a width of Furgerson Street, at its intersection with said Route, of about 30 feet.

6. Mosby Avenue has graded and paved sidewalks for its entire length on each side. Furgerson Street has a paved sidewalk for about 1000 feet (about one-seventh of its entire length) on one side, and no side walk at all for the rest of said side; on the other, no paved walk and only a dirt, ungraded path.

7. Furgerson Street runs along the entire length of the play grounds of Littleton High School; students are not allowed to play on the Mosby Avenue side.

Shady Grove Items
