That Justice May Ever Have A
Champion; That Evil Shall Not
Flourish Unchallenged.

Entered at the Postoffice at War-
renton, North Carolina, under Act
of Congress of 1879.

Better is a dry morsel, and
quietness therewith, than an
house full of sacrifices with
strife.—Proverbs 17:1.

If my counsel is of any avail,
we shall at all times, under
persuasion that the soul is im-
mortal and equal to the burden
of every evil and every good,
hold on the upward path, and
strive in every way, after
thoughtful rectitude, that we
may be in friendship with our-
selves and with the gods, not
only while abiding here, but
when as conquerors we go
round and gather in the prizes
of our victory; and that both
now and on the millennial
journey we have described, it
may be well with us.—Plato.

**SHOULD LET FARMERS
"TAPER OFF" LOANS**

The story carried else-
where in this paper that the
Seed Loan office will again
function comes as good
news to the small farmers
of this county who have no
means of securing financial
backing except through Uncle
Sam.

While we do not think
that the Seed Loan will be
a permanent thing, or should
be, it is our opinion that it
has done as much, if not
more, to help the small
grower through the depres-
sion than any other one
project that the govern-
ment has undertaken, and
we would regret to see
farmers who are about to
slip from beneath the bur-
den of indebtedness be
forced back to the state of
serfdom by the whip-lash of
high interest rates which
many would be forced to
accept if government loans
had not been made available
this year.

Rather than to suddenly
cut the loans off, the gov-
ernment should cut them
down each year until they
are done away with. In

other words, the govern-
ment should let the farmers
whom it has stimulated with
financial backing for the
past few years gradually
"taper off."

**BUREAU HAS CHANCE
TO TEST STRENGTH**

The Warren County Farm
Bureau formed here a few
weeks ago to bring about
legislation of benefit to till-
ers of the soil has missed a
great opportunity to test
out its strength on Governor
Ehringhaus in regard to the
calling of a special session
of the legislature to form a
compact with other states
and regulate the production
of tobacco.

Resolutions and petitions
as a general thing do not
carry but a certain amount
of weight, it is true, but
since the organization was
formed here on the theory
that it would have influence
on government officials, it
would not have been amiss
for the farmers to have held
a mass meeting, determined
the consensus of opinion
among members in regard
to a curtailment program,
and to have notified the gov-
ernor of their position.

**SUNDAY SCHOOL
LESSON**

by Charles E. Dunn
Jesus Teaches His Disciples to
Pray.
Lesson for March 15th. Luke
11:1-13.

Golden Text: 1 John 5-14.
We do not grow weary of the
Lord's Prayer. Almost every ser-
vice of worship finds a place for it.
On no occasion is it inappropriate.
And always it serves as a central
act, a climax toward which all else
points.

Note that it is a splendid state-
ment of belief, plainly indicating
what Jesus taught. The Lord's
Prayer is the very heart of the gos-
pel. Some one has well said that
it can be committed to memory in a
few minutes, but that it is the
work of a lifetime to learn it by
heart.

Then, too, the Lord's Prayer is
a letter, a loving message sent by
the devout believer to the throne
of heavenly grace. As an old com-
mentator quaintly says, "Here is the
person to whom it is directed, 'Our
Father;' the place, 'in heaven;' the
contents of it, in several errands
of request; the close, 'for thine is
the kingdom;' the seal, Amen; and
if you will, the date, too, 'this day.'
It is a brief missive, but this brevity
is a merit. For the best love is not
the luxurious love of romance, but
the tested love of experience, that
breathes assurance. Such love is
expressed in a simple fashion, by a
word or look. So it is with prayer.
Jesus strongly opposed the wordy
prayers the pious men of his day
loved to pronounce. And so he gave
us the Lord's Prayer, both short
and profound.

This prayer is also a chapter of
liberty. Profoundly social in char-
acter, it is a petition of the people.
Note how it supports our ideal of
democracy.

Finally, the Lord's Prayer is a
love-song of supreme beauty. This
is altogether fitting, for the deepest
experiences of life are always poetic
in their expression. Genuinely sin-
cere prayer is rhythmic. It sings
with a regular beat. And so the
Lord's Prayer is a poem, a mighty
song, a lyric of incomparable ap-
peal.

In Memoriam

RAYMOND WILKER
We feel the great loss of such a
dear boy, Raymond Wilker, who
died December 23, 1935. We all
loved Raymond because he was al-
ways cheerful with every child he
met. We often played together and
had good times. I lived close to him.

**RUPTURE
SHIELD EXPERT HERE**

H. M. SHEVNAN, widely known
expert of Chicago, will person-
ally be at the Carolina Hotel, Ra-
leigh, Saturday, Sunday and Mon-
day, only, March 14, 15, and 16,
from 9 A. M. to 5 P. M.

Mr. Shevnan says: The Zoetic
Shield is a tremendous improve-
ment over all former methods, ef-
fecting immediate results. It will
not only hold the rupture perfectly
but increases the circulation, and
strengthens the weakened parts,
thereby closes the opening in ten
days on the average case, regard-
less of heavy lifting, straining or any
position the body may assume no
matter the size or location. A
nationally known scientific method.
No under straps or cumbersome ar-
rangements and absolutely no
medicines or medical treatments.

Mr. Shevnan will be glad to demon-
strate without charge.

therefore it made it convenient for
us to be together often. He was
born Dec. 25, 1921, and was 14
years of age. He joined the Warren
Plains Baptist Church two years
ago and was a faithful boy and
very kind to his mother. The people
around his home miss him very
much, especially the younger set.

*** TOBACCO FERTILIZERS MADE OF
NATURE'S TREASURED PLANT-FOODS**

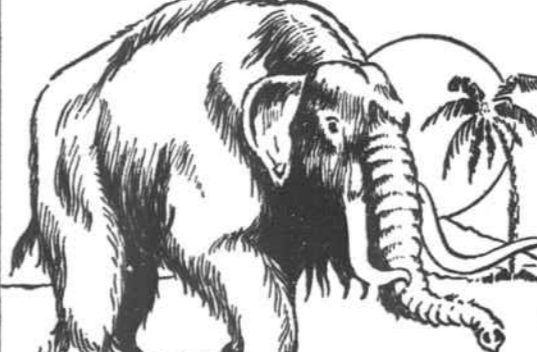

FROM THE SEA

WE use tons of fish
scrap in Robertson's
Proven Fertilizers and the
manure of fish-eating
birds. They supply plant-
foods in forms no chemist
can imitate.

FROM THE SOIL

COTTONSEED-meal,
rich in Nitrogen,
Phosphoric Acid and Pot-
ash, is generously used in
Robertson's Tobacco Fer-
tilizers. It nourishes the
crop constantly.

FROM THE MINES

THE bones of prehis-
toric animals are
mined and turned into
superphosphates to supply
the phosphoric acid that
crops need.

FROM PACKING PLANTS

IN blood and tankage
are recovered the ele-
ments that grew the feed
for livestock. We use them
regularly in Robertson's
Fertilizers.

**DON'T TAKE CHANCES. USE THESE MAGNESIA-RICH—
THOROLY CURED—BETTER INGREDIENT—FERTILIZERS**

To prevent damage to the leaf from
frog-eye and sand-drown, we use large
quantities of Sulphate of Potash Mag-
nesia. We put in Muriate to give body
and weight. Then we add dolomitic
limestone and "cure" the mixtures.
This makes the magnesia available.
Our Tobacco Mixtures contain one-
half organic nitrogen and one-half
mineral—proven best by years of test.
