September 25: Warren County Fair Begins
October 25: Performance Tested Angus Calf Sale, Rocky Mount, N. C.
November 1: Performance Tested Hereford Calf Sale, Rocky Mount, N. C.

see three hard working civic minded people placing a sign near the edge of the Drewry Community on the Jackson Town Road. Left to right, the road sign committee are: C. B. Curtis, Jr., Ellis Fleming, chairman, and W. B. Ellington. Committee members not present are: A. E. Liles and Wilson Fleming. The signs constructed at the vocational agricultural workshop, Middleburg, were made from Marine plywood and cedar posts. Officers of the growing community club are: Mrs. F. H. Ranes, chairman; Ellis Fleming, vice chairman; and Mrs. Sandra Pearce secy-treas.

COMMUNITY ROAD SIGNS

In the picture above you you

the job of fireman but Mr. Curtis had a difficult time keeping him on the job.

A. E. Liles gave me one of the worst horse shoe pitching defeats I have ever had, so if you have an itching hand, drop by his place for a brush-off.

Several weeks prior to the community fish fry, the fishermen of the community put forth their best efforts to catch and save surplus fish for the occasion. There were so many fish left over one could be reminded of the Biblical story concerning the fish and loaves. All of this is indication of their community spirit.

RAIN NEEDED

As this is written on August 3, we are in critical need of rains. Producers irrigating still have a smile on their faces and a feeling of confidence but most others have a sad washed-out look. They have justification for such.

As far as I can observe, cotton is having a field day and doing well. Boll weevils are having a rough time surviving the hot soils but a few do in order to keep the seed supply going.

CANTALOUPE

Too much early rain followed by downy mildew and dry weather has seriously curtailed cantaloupe production. W. L. Kilian used hot cops on one field, resulting in the best and earliest melons as compared to the normal planting.

W. J. Hecht has treated his cantaloupes four times for downy mildew using copper dust. The results have been outstanding. The vines and leaves have remained green to allow a long period for the cantaloupes to develop. A taste test proves the flavor to be like old times.

It just goes to prove that a regular routine plan for production will not work and we must be flexible to the ex-

tent we will do the known thing at the right time to get desired results. Mr. Kilian and Mr. Hecht are proving this.

Five Witnesses To Attend Convention

According to a statement made here this week by J. R. Davis, local presiding minister, about five delegates from the north unit here in Warrenton will attend the three-day convention of Jehovah's Witnesses in Durham August 11-13.

More than 450 delegates from the sixteen congregations of circuit 36 are expected. The area of the circuit extends from Washington, N. C. to Sanford.

The meeting will be held at the Central Civic Center Building, corner Foster and Morgan Streets in Durham. The theme of this three-day gathering is centered around the words of Micah 4:5, NW, "We will walk in the name of Jehovah our God forever."

The convention is sponsored by the Watchtower Bible and Tract Society of New York for the spiritual benefit of Jehovah's Witnesses and their friends.

Sessions will begin Friday evening, August 11, at 6:45 and continue through Sunday, August 13, until 6:00 p. m.

Davis said the program will include symposiums, panel discussions, and practical demonstrations on how to effectively present the kingdom good news. The progress of the past six months will also be reviewed.

The climax of this three-day assembly will be a public talk by H. L. Brissett, district supervisor, Sunday, August 13, 3:00 p. m. Mr. Brissett's subject will be: "The Twentieth Century In Bible Prophecy". All sessions will be open to the public.

Marriage Licenses

August 5
Thomas Washington Hand, white, of Rocky Mount, to Lillian Janett Gatling of Rocky Mount.

Donald E. Farley, white, of Washington, D. C., to Sandra Raye Butcher of Washington, D. C.

James Taylor Mustian, Jr., white of Warrenton to Sharon Lee Isom of Annandale, Va.

Farm Costs Expected To Rise Again In '61

Increases in taxes, interest, and wage rates will probably result in somewhat higher farm costs in 1961 than in 1960.

This is the conclusion reached by Hugh L. Liner, farm management specialist at N. C. State College, in a mid-year outlook at North Carolina farm costs.

Here are his other outlook predictions:

Feed grain prices are expected to average close to those of the past year with a slight increase in protein and by-product feed prices.

Prices for feed cattle should remain steady with a decline in feeder pig prices.

General price increases can be expected for farm machinery, building materials and other production items that have high labor requirements.

Fertilizer prices will probably increase slightly.
