work in feeding children.

The Tar Heel Kitchen

By MISS YORK KIKER N. C. Dept. of Agri.

Marketing Home Economist Do you have trouble planning meals for your family daily? Imagine how it would be to serve lunch to approximately 812,000 children daily with a potential of over one million customers? Visualize the difficulty in planning nutritious, attractive meals, ordering and preparing foods, having everything ready on schedule, and pleasing that many appetities- all on a very limited budget. You may well ask who has much a tremendous task. The

dedicated school food service staff in North Carolina are working daily to feed those thousands of school children. Children, and adults sometimes question how meals are planned and why certain foods

are included. You remember that in school an "A" was given for good work. Perhaps it is significant that most schools serve a type "A" lunch, meaning a good lunch of carefully chosen foods to furnish approximately 1/3 of the child's daily food needs. Requirements are for milk, protein foods, vegetables and fruits and cereal products.

The type "A" lunch is unquestionaly one of today's best food buys. The total cost of North Carolina's school lunch program in 1970 will be over \$72 million, but children's payments will only be approximately \$47 1/2 million of the total. The low cost of lunches to children is possible due to federal food donations and reimbursements, and state and local contributions.

dom under law. It is to these ends that the United Nations is dedicated. On October 24th, United Nations Day, our own American Flag and the UN Flag are flown together across the country in communities large and small, in celebration of this day. In celebration of United Nations Day here in our community, church bells throughout Warrenton will be rung at 12:00 noon on Saturday. In support of the United Nations and those

acting under its mandate in the interest of peace, the Warrenton Junior Woman's Club urges each and every citizen of Warrenton and Warren County to observe this special day by flying the American Flag and by giving thanks for everything the UN is doing to build an orderly world in which all people can enjoy mankind's inalien-able rights to life, liberty and the pursuit of happiness. Shrimp swim backwards, pushing themselves with their
