

Charles Montague [13] stands as the lone Blue Wave in an attempt to gain possession on this rebound. Montague is joined by Bunn players Jimmy Strickland [11] and Greg Conyers, who finally ended up with this rebound and a win over Norlina.

Norlina Girls Tame Jackettes 49-46

Norlina's girls built up an 18-point half time lead and held off a furious Warrenton rally Tuesday night to hand John Graham's lassies their first Tar River Conference loss and only their second loss over-all, 49-46.

With Dorothea Townes leading the way with a 16-point effort, the visiting Lady Waves held the Lady Jackettes to only three points in the second quarter en route to their tenth win of the year. Both Warrenton and Norlina have identical 3-1 records in conference play.

In the nightcap, Warrenton poured in a dozen points in overtime to defeat their league rivals, 63-53, after regulation play ended in a 51-51 standoff.

Doug Stiff led the way for the Jackettes with 20 points, while Thomas Jefferson paced Norlina with 14.

Friday night the Jackettes will travel to Bunn for a double-header, while Norlina hosts Weldon. On next Tuesday night Norlina is against Louisburg and Warrenton travels to Enfield.

Academy Cagers Post Win Over Oxford Club

The Warren Academy boys played consistently well for the entire game and ran up a convincing win against Oxford Orphanage on Friday night, 43-30. Carl Qualls played his usual over-all consistent game, ending up as high scorer. Everett Knight was second high and played the middle in the four-corners real well. Harold Seaman and Randy Odom hit the boards well at both ends of the court.

Food Workshop Held

A county school food service workshop was held at Mariam Boyd School on Thursday, Jan. 29, from 9-12 with 45 people attending. "Improving Work Habits" and "Upgrading Sanitation Levels" were the two main areas of discussion. Mrs. Ann Kilian, County School Food Service Supervisor, was in charge of presenting the program.

During a break in the morning's activities, coffee, sandwiches and cake were served to the group by Mrs. Ella Cook, Mrs. Ethel Harris, Mrs. Mable Allgood, Mrs. Helen Pinkney and Mrs. Willie Mae Williams, the lunchroom staff at Mariam Boyd School.

After being out "talled" each game this season, Oxford Orphanage was a welcome sight because of their height, or lack of it.

Scoring for the Warriors were Carl Qualls 14, Everett Knight 11, Harold Seaman 10, and Randy Odom 7. For Oxford Orphanage was Jim Worley with 10 and Ronny Hawley with 8.

Girls Game

Frances Daniel netted 16 points for the Warren Academy girls on Friday night as they upset Oxford Orphanage, 42-30. The defensive team played well as they held Oxford to three points in the first and second quarter while W.A. girls took a 14-point lead at halftime. The second half was much like the first and the girls held on for the victory.

Scoring for the academy were Daniel, Bonnie Greer 6, Mary Lou King 5, and Rhonda Reid 4. High scorers for Oxford were Jill Strickland 8, and Kelly Perkins with 5.

The Academy Warriors had a game on Tuesday against Hobgood and will meet Wake-Christian in Raleigh on Friday for an important conference game.

Annie Bullock makes a hook-shot in the girls game against Bunn. The Lady Waves were victorious in the preliminary game of a twinbill against the Bulldogs. (Staff Photos by Don Stith)

Warrenton Wins Twice In Franklin

By DON STITH

Warrenton won a double-header over Franklinton in Tar River action in Franklin County Friday night. In the preliminary, the girls remained undefeated in conference play with an impressive 61-29 win over the Lady Red Rams and in the nightcap the boys joined conference winners with a 59-46 victory.

Girls Game

The girls team held complete control of the contest from tipoff, throughout. Franklinton was outscored by Warrenton in every quarter.

Connie Ross, captain of the Warrenton squad, led all scoring with 19. Teammates Edith Rodwell and Barbara Pullen followed with 11 and 10 points each.

Boys Game

Floor action on part of the Yellow Jackettes showed a big improvement over last week's 72-52 loss to Louisburg. John Graham jumped to an early 13-4 first-quarter lead and a startling 29-7 halftime margin.

Warrenton's explosive first half play paved the way for their first conference win of the season.

Douglas Stiff, who is the leading scorer for the Yellow Jackettes, continued his scoring leadership by netting 21 points for the motivated Warrenton squad. Trailing Stiff in scoring was Ben Williams with 14. Williams was moved to a starting position in the Louisburg game and is making his presence known.

Deadly Yellow Cards Out

Paul Thompson Reports

Those deadly yellow cards have appeared once again at John Graham. Their proximity produces chills, shaking and anguish. I refer, of course, to report cards.

Not all of them are so bad. Mine was pretty good, for a change. The cards came out

Waves Downed

Norlina's boys dropped a one-point verdict to Bunn in a Tar River contest played at Norlina on Friday night. The Waves let a 10-point lead slip through their fingers as the visitors took their third conference win in a row against no losses.

In the girls opening contest, Gwen Talley and Dorothea Townes sank 16 points each to give the Norlina lassies a 55-48 win.

Jayvees Lose Bid

John Graham's jayvees lost a chance to climb into first place at Louisburg Monday when they dropped a 68-66 overtime decision to Franklinton's jayvees.

Lawrence Boyd had 16 points to pace the junior Jackettes, while Daryl Lyles had 14 and Steven Foster chipped in, a dozen. William Green added 11 markers for the losers, who had knotted the game 62-all at the end of regular play.

Tuesday.

The Yellow Jackettes faced arch-rival Norlina Tuesday also. Fresh off a convincing double win over Franklinton (the girls' game was a runaway 61-29), the two Yellow Jacket teams expected a highly "interesting" game. (?)

The rest of the week is downhill from Tuesday. Friday the Jackettes travel to Bunn. The last encounter with Bunn was a split bill, girls winning, boys losing.

The biggest mystery in Warren County is "The Case of the Missing Class Rings." I understand that new developments are expected soon, but the delay is frustrating to those who have heavily invested in the chunky jewelry.

The Junior Class is expecting to raise enough money for the '76 Junior-Senior by Friday by levying class dues. I don't think they will succeed. If they don't, no party. Won't the Seniors love that?

Thought That Counts

That son of mine is something else. He gave me a really wonderful card for Christmas. It took him months to make it — 'cause it reads HAPPY FATHER'S DAY.

Inflation

This year I'm going to give my wife something worth \$50 — guess it'll have to be a \$100 bill!

Cleaning Teeth Should Begin Early

The cleaning of teeth should begin as soon as possible in order to cut down on tooth decay. Ms. Kathy Pressly, Warren County dental hygienist, pointed out this week. Ms. Pressly issued the reminder at the outset of the Feb. 1-7 observance of National Children's Dental Health Week.

"The real culprit in dental decay is the colorless film of bacterial plaque that forms constantly on everyone's teeth, even a baby's."

"You should start cleaning your child's teeth as soon as his first incisors (front teeth) have come in. Since it may be difficult to brush an infant's teeth, a parent can remove the plaque from the teeth by using a cotton swab or piece of gauze wrapped around a finger."

"Preschool children can be taught to brush effectively, but parental participation and supervision are necessary for several years. By the time the child has all of his first teeth, he should be used to the idea and can do most of the brushing by himself."

"Since children are prone to tooth decay, they should clean their teeth after each meal and every night before going to bed."

To remove plaque from the outer, inner and biting surfaces of the teeth, most dentists recommend using a brush that has a straight handle, a flat brushing surface and soft, end-rounded bristles. The head of the brush should be small enough to provide easy access to every tooth. Children need brushes smaller than those designed for adults. Children may find it easier to use an electric toothbrush.

"The most frequent tooth-brushing method recommended for plaque removal involves using a gentle back-and-forth

Miss Crowe New MYF President

Debra Crowe has been elected president at the first meeting of a newly organized Methodist Youth Fellowship at Jerusalem Church. Mark Sammons is the new vice-president with Janell King becoming secretary, Cynthia King, treasurer, and Lisa Leete, reporter.

Mr. and Mrs. Herbert Moseley are leaders of the young organization. The M. Y. F. will be held each Sunday evening at 6 p. m. at Jerusalem Methodist Church.

scrubbing motion, with short strokes. With the bristle tips held at a 45-degree angle against the gum line, the brush cleans the teeth and gums at the same time.

"Chewing surfaces also are brushed with short, scrubbing strokes."

"Disclosing tablets or solution—which may be obtained at a drugstore—can be used after cleaning to check the effectiveness of the child's brushing methods," Ms. Pressly said.

Arts Commission Sponsoring Show

The Warrenton Arts Commission will emphasize February as North Carolina Art Month by having George Chrest in Warrenton on Sunday, Feb. 8, from 3 to 5 p. m. at the AAA Gas Co. on South Main Street.

Mr. Chrest is currently teaching print making at Meredith College. His work has been widely exhibited and acclaimed in New York, Virginia and Michigan as well as in North Carolina.

He will be on hand Sunday to present a showing of his prints and drawings and will talk to those present at the showing about his work and technique.

The exhibit will continue at the AAA Gas Co. through the month of February.

The public is invited to attend this special feature on Sunday.

Final Rites Held For Mrs. Towns

Funeral services for Mrs. Mary King Towns, 67, widow of Louis N. Towns, will be held at 1 p. m. Thursday at Cook's Chapel Baptist Church in Warren Plains by the Rev. Harold Timberlake, assisted by the Rev. W. L. Barnes, pastor. Burial will be in the King-Burchette Cemetery.

Mrs. Towns, who died Sunday in Maria Parham Hospital, is survived by ten daughters, Mrs. Carrie B. Nophlin, Mrs. Minnie L. Thompson, Mrs. Pattie L. Alston and Mrs. Mary E. Causon, all of Maryland, Mrs. Almetia Taylor and Mrs. Ella M. Robinson, both of New Jersey, Mrs. Florine Russell of New York, Mrs. Clara M. Champion and Mrs. Grace E. Alston of Warrenton and Miss Emma Ann Towns of the home; seven sons, William and Lee of Maryland, James, Louis, Jr., Clarence and Thaddeus of New Jersey and Robert Towns of Warrenton; one sister, Mrs. Emma Mitchell of Pennsylvania; three brothers, Gid of New Jersey, Charlie of New York and James King of Pennsylvania, 73 grandchildren and 55 great-grandchildren.

ASCS News Briefs

Conservation Program

The Warren County ASC Committee met with the County ACP Development Group on January 29 and developed the 1976 Agricultural Conservation Program. The objective of the program is the same as for the 1975 ACP—to cost-share with public funds the performance of enduring soil and water conservation measures on farmland that the farmer would not perform without cost-sharing, thus assuring that the public tax dollar is buying needed conservation beyond that which the farmer would accomplish with his own resources.

Farmers who are interested in requesting cost-sharing assistance should file requests prior to starting the practice.

Release Acreage

If you are not planning to plant your cotton allotment this year you should release it to the county office. This will protect the allotment and prevent loss of acreage for not planting. Be sure and release acreage you will not plant by March 10. Producers wishing to plant more acreage may request additional allotment by March 10.

Peanut Lease and Transfer

The final date to transfer peanuts, release peanuts and request additional acreage is also March 10. If you plan to lease peanuts, be sure to do so by this deadline.

New Farm Allotments

Applications for new farm tobacco, peanut, cotton, and feed grain allotments for 1976 must be filed at the ASCS Office by February 15. Eligibility requirements for new farm allotments are available at the county office. One of the requirements is that a farmer cannot own or operate another farm with such an allotment for the current year.

Lease and Transfer of Tobacco

Tobacco lease and transfer agreements are being accepted at the county ASCS Office and will continue through June 14. After June 14, transfers may be filed provided both the transferring and receiving farms have planted at least 50 percent of the effective allotment or the basic quota is 2,000 pounds or less.

A list of producers who wish to lease and transfer tobacco is being maintained in the ASCS Office. This list contains the addresses and telephone number of producers wishing to lease and transfer tobacco. Anyone wishing to be added to the list may contact the office.

The maximum pounds of flue-cured tobacco that can be transferred to a farm by lease is determined by multiplying the farm yield by the acreage computed by subtracting the basic tobacco allotment from 50 percent of the cropland. This limitation is not applicable when leases are filed after June 14.

Premeasurement Service Available

The County ASCS Office will offer premeasurement services to producers again this year. Rates have been set at \$1.25 per acre for tobacco, and \$1.00 per acre for all other crops, plus a \$4.00 service charge for each farm serial number involved. The minimum rate for any farm is \$10.50.

Allotment Notices

1976 allotment notices for feed grain, wheat and cotton will be mailed on February 6, 1976. These notices show the allotment and yields for these crops. This allotment does not limit the acreage which may be planted to the crops. The allotment and yields will only be used in the event a deficiency or disaster payment becomes necessary on the crop. More information will be furnished later on disaster and deficiency payments.

Tobacco Discount Variety Program

The flue-cured tobacco discount variety program will remain in effect for 1976. Producers will be required to certify as to whether or not they planted a discount variety tobacco on their farm in 1976. The discount varieties are: Coker 139, Coker 140, Coker 316, Dixie Bright 244, Reams 64, or a mixture or strain of such seed varieties, or a breeding line having similar appearance and growth characteristics of such seed varieties. This certification must be filed prior to issuing the marketing card for the farm.
